#### Dividend proposal to the Annual General Meeting:

On 31 December 2018, the Group's parent company had distributable funds totalling EUR 152,709,980 (134,532,841). Alma Media's Board of Directors proposes to the Annual General Meeting that a dividend of EUR 0.35 per share (2017: EUR 0.24 per share) be paid for the financial year 2018. Based on the number of outstanding shares on the closing date 31 December 2018, the dividend payment totals EUR 28,751,404 (19,733,564).

No essential changes have taken place after the end of the financial year with respect to the company's financial standing. The proposed distribution of profit does not, in the view of the Board of Directors, compromise the company's liquidity.

#### Operating environment in 2019

Finland and Alma Media's significant operating countries in Eastern Central Europe, such as the Czech Republic and Slovakia, are expected to see economic growth, but the rate of growth is predicted to slow down in 2019.

The structural transformation of the media will continue; online content sales will grow, while the demand for print media will decline. The profitability of print media will be reduced by higher distribution and delivery costs as well as volume-linked costs. Making use of data, analytics, machine learning and automation will become increasingly important, which calls for increasing technology investments. The areas of digital advertising that are expected to see the fastest growth are search engine, social media, mobile and video advertising as well as content marketing.

#### Outlook for 2019

In 2019, Alma Media expects its full-year revenue to remain at the previous year's level and its adjusted operating profit to increase compared to 2018. The full-year revenue for 2018 was MEUR 354.6 and the adjusted operating profit was MEUR 57.3.

## Market situation in the main markets

According to Kantar TNS, the total advertising volume in Finland decreased by 1.8% (1.1%) in October–December 2018, while advertising in online media increased in Finland by 1.3% (11.9%) in the final quarter of the year. Advertising in city papers and newspapers declined by 10.1% (9.7%) in Finland. Advertising in magazines in Finland decreased in October–December by 1.2% (0.7%). In terms of volume, the total market for afternoon papers in Finland declined by 8.2% (13.4%) in the fourth quarter of 2018.

According to Sveriges Mediebyråer, the total advertising volume in Sweden increased by 6.2% (3.7%) in 2018. During the same period, online media advertising increased by 6.2% (10.2%) in Sweden, while advertising in trade magazines decreased by 16.0% (9.6%).

Alma Media's main markets in Eastern Central Europe are the Czech Republic and Slovakia. According to the European Commission's forecast, the Czech Republic's GDP will grow by 2.9% in 2019. The Czech National Bank estimates that the GDP will grow by 3.3% in 2019 and 3.3% in 2020. In Slovakia, GDP growth in 2019 will be 4.1% according to the European Commission's forecast. The National Bank of Slovakia estimates that the GDP will grow by 4.2% in 2019 and 4.3% in 2020.

### Kai Telanne, President and CEO:

Alma Media's profitability continued to see strong development in 2018. Adjusted operating profit grew by 12.2% to a record-high MEUR 57.3, while the operating profit margin was 16.2%. Earnings per share increased by 29.5% to EUR 0.51. The Board of Directors proposes to the Annual General Meeting that a dividend of EUR 0.35 per share be paid.

The result for the final quarter of 2018 was excellent, with all businesses improving their financial performance.

Alma Markets led the way once more with an operating profit margin of 33.7%. The growth of the recruitment business in our operating countries in Eastern Central Europe slowed down compared to the earlier part of the year, but was still at a good level supported by the economic growth in the region. The domestic marketplaces business, excluding the recruitment business, achieved organic growth of 11% in October–December. Further sources of growth and profitability were the new businesses acquired at the beginning of 2018 as well as investments in value added services. Operating profit was also increased by lower marketing expenses.

Alma Talent continued to focus on its core business and made progress in its transformation towards digital media and service business models. Digital content revenue developed favourably in several media. For Kauppalehti digital content revenue compensated for the decline in print media content revenue in 2018. The events and books business as well as digital advertising revenue also developed favourably in Finland.

In Alma Consumer, measures to ensure the profitability of publishing operations continued. Print media advertising revenue decreased, although the rate of decline was slower than that of the market in general. At the same time, the growth of the segment's digital advertising revenue outperformed the market, particularly in the areas of video advertising, programmatic buying and content marketing. The digital subscription revenue of Alma Consumer's regional and local media has showed promising development.

Buoyed by the good financial result and strong cash flow, Alma Media became a nearly net debt-free company at the end of the review period. Our strong balance sheet, in spite of the effects of IFRS 16, gives us operating space to build our future growth, make acquisitions to support the growth of our digital business and invest in technologies that enhance our competitiveness.

Global economic growth is levelling off, but our target remains to exceed market growth, especially in the digital business. Digital business now constitutes nearly half of the Group's revenue and three quarters of its adjusted operating profit. International operations account for 20 per cent of total revenue and 40 per cent of the Group's adjusted operating profit.

Our fourth consecutive year of improving annual profits is a proof of our successful digital transformation, changes to our business portfolio and cost optimisation. In line with our strategy, we have made our print business more efficient and invested particularly in expanding our international digital business. At the same time, we have divested unprofitable businesses.

## Strategy and related activities during the review period

Alma Media creates sustainable growth by taking advantage of the opportunities presented by the digital transformation. The objective is to increase shareholder value through revenue growth and improved profitability. Alma Media is developing and expanding its current business operations and seeking growth opportunities in new businesses and markets. The company will remain on the path of internationalisation. In addition to organic growth, the improvement of profitability will be accelerated by acquisitions.

Alma Media will respond to consumers' changing media consumption and build its publishing brands into multi-channel media solutions. In the media business, the shift from print to digital media will continue with the development of digital content and marketing solutions in line with customer needs, ensuring that the Group's media are valued as the leading brands in their respective regions and communities. In order to increase service revenue, Alma Media will increase its digital offering by launching new products and services, also outside publishing operations.

For the 2018–2020 strategy period, Alma Media has selected five strategic Group-level initiatives that are particularly aimed at the growth and development of digital business. Cooperation and synergies between the Group's various businesses will be leveraged in the execution of the initiatives. The strategic initiatives are as follows: 1) centralised national media sales through Alma Media Solutions; 2) aiming for growth in digital content revenue through eCom; 3) utilising data in business while taking regulatory requirements into consideration; 4) Alma themes and services focused on special content areas and services; and 5) growth and management of visitor traffic.

The Group-level strategic data initiative will build and enhance data-related competencies to support media sales, content sales and the personalisation of services as well as to respond to regulatory requirements. The use of customer data and behavioural data will be developed further by consolidating customer data repositories and by increasing the use of analysis and activation technology.

One important step related to the data initiative in 2018 was the consolidation of data in a shared repository. The data repository combines the statistics produced by Alma Media's various websites and applications with data from subscription systems. Subject to consent, user location data and log data from advertising systems will also be entered in the data repository. This enables customer profiling, a more personalised user experience, content targeting to serve the needs of media sales, content sales and marketing, as well as comprehensive reporting. The data repository will also serve as the foundation for Alma Media's machine learning projects. One central aspect of the data initiative is the deployment of a Data Management Platform (DMP). The DMP will strengthen the development of the data-driven customer experience of Alma Media's content and services as well as marketing automation and the targeting of digital advertising.

LMC, a Czech subsidiary under the Alma Markets segment, has expanded its product portfolio from the basic recruitment business to include various mobile services, such as services focused on job location and accessibility as well as recommendations of colleagues on social media. A positive and strong employer image plays an increasingly important role in the Czech job market to reach the most skilled and hard-to-reach candidates. In response to this need, LMC launched the employer recommendation service Atmoskop in 2017. The service has been well received and, by the end of the review period, the application included over 60,000 reviews of more than 16,000 employers.

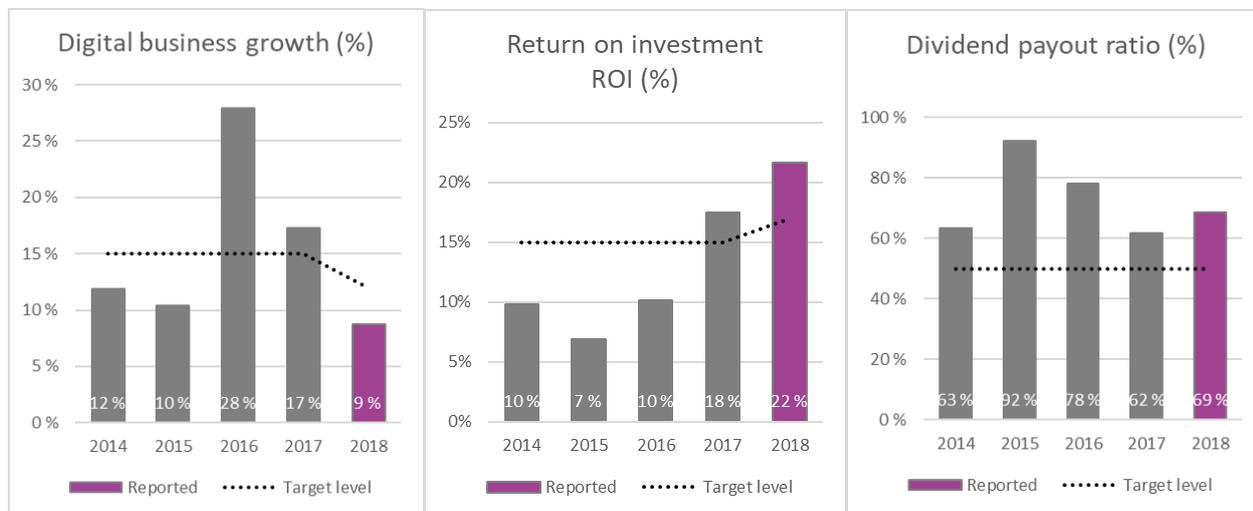

Alma Talent's strategy is to make content easily accessible for customers across various channels. During the review period, the efficiency of digital content production was improved in several of Alma Talent's media. Kauppalehti implemented a significant content renewal. The fourth quarter also saw a redesign of the online bookstore for professional literature and the launch of the Alma Talent Kirjat application, which combines business e-books, audiobooks and podcasts under a mobile interface.

Measures to ensure cost efficiency continued in Alma Consumer during the review period. The co-determination negotiations initiated by Alma Media Kustannus Oy and affecting a total of 100 Aamulehti editorial staff concluded in reductions corresponding to 11 person-years.

**Alma Media's long-term financial targets:**

Alma Media updated its long-term financial targets during the review period.

- Annual growth in the digital business over 12% (previously: over 15%)
- Return on investment (ROI) over 17% per year (previously: over 15%)
- Dividend over 50% of earnings per share (unchanged)

The figures are compared in accordance with the International Financial Reporting Standards (IFRS) with those of the corresponding period in 2017, unless otherwise stated. The figures in the tables are independently rounded.

Alma Media Corporation additionally uses and presents Alternative Performance Measures to better illustrate the operative development of its business and to improve comparability between reporting periods. The Alternative Performance Measures are reported in addition to IFRS key figures.

## REVENUE

### October–December 2018

Revenue for the fourth quarter of 2018 declined by 5.3% to MEUR 91.9 (97.1) due to divestments.

Content revenue declined by 9.1% to MEUR 29.5 (32.4). The increase in content revenue from digital distribution channels was not sufficient to cover the decline in print media content revenue. Divested businesses had a net effect of MEUR 2.3 on the decrease in content revenue.

Revenue from advertising sales declined by 3.2% to MEUR 48.6 (50.2). Advertising revenue for print media declined by 20.6% from the comparison period to MEUR 13.1 (16.5). Digital advertising revenue increased by 5.5% to MEUR 34.7 (32.9). Divested and acquired businesses had a net effect of MEUR 2.7 on the decrease in advertising sales revenue.

Service revenue totalled MEUR 13.9 (14.5). Divested and acquired businesses had a net effect of MEUR 0.5 on the decrease in service revenue. Service revenue includes items such as the sale of information services, the event, training and direct marketing business and the printing and distribution services sold to customers outside the Group by Alma Manu.

### Full year 2018

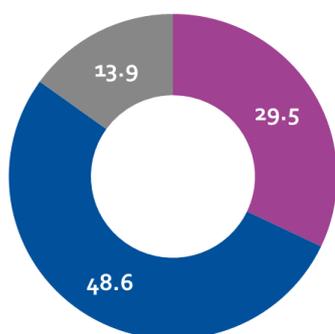

Revenue declined by 3.5% to MEUR 354.6 (367.3) in 2018. Divested and acquired businesses had a net effect of MEUR -16.4 on the change in service revenue.

Content revenue declined by 8.8% to MEUR 114.8 (125.8). The year-on-year decline in content revenue was attributable to lower print media circulations. Divested businesses had a net effect of MEUR 9.5 on the decrease in content revenue.

Revenue from advertising sales declined by 1.0% to MEUR 183.9 (185.8). Advertising revenue for print media declined by 19.4% from the comparison period to MEUR 50.6 (62.8). Digital advertising revenue increased by 8.6% to MEUR 131.0 (120.5). Divested and acquired businesses had a net effect of MEUR 9.5 on the decrease in advertising sales revenue.

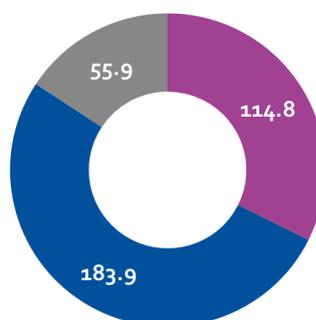

Service revenue totalled MEUR 55.9 (55.7). Divested and acquired businesses had a net effect of MEUR 1.0 on the change in revenue. Service revenue includes items such as the sale of information services, the event, training and direct marketing business and the printing and distribution services sold to customers outside the Group by Alma Manu.

## Changes in Group structure in 2018

In January 2018, Alma Mediapartners, a subsidiary of Alma Media, acquired the remaining share capital to become the full owner of AutoJerry Oy, a previously consolidated company offering competitive tender services for car servicing. Also in January 2018, Alma Media's subsidiary Alma Mediapartners Oy strengthened its software business related to construction and housing by acquiring the entire share capital of Käyttösofta Oy from its founders and acquired Katsastushinnat.fi, a marketplace for comparing vehicle inspection services, by purchasing the share capital of the service's owner Ahorouta Oy. Alma Media Group owns 65% of the Alma Mediapartners group.

Alma Media sold its newspaper and distribution business in Lapland to Kaleva effective in April 2018. The transaction saw a change of owners of the regional newspaper Lapin Kansa, the town papers Uusi Rovaniemi and Lounais-Lappi as well as Alma Manu Oy's distribution business in Lapland. As a result of the transaction, Alma Media recognised a non-recurring sales gain of MEUR 4.5 in the second quarter.

Alma Talent Oy, a subsidiary of Alma Media, sold its CRM system reselling and maintenance business to CRM-service in June.

Alma Talent Events Ab, a subsidiary of Alma Talent specialising in the events business, discontinued its operations in Sweden.

In July 2018, Alma Talent Ab, a subsidiary of Alma Media, sold the share capital of Dagens Media Sverige Ab to Bonnier Business Media. In the transaction, Bonnier acquired the media brands Dagens Media and Medievärlden, their media business and events as well as editorial employees.

Alma Consumer's travel media Rantapallo sold the Matkapörssi and Lentokeskus business operations to Lakeuden Matkat Oy in July.

In July 2018, Alma Media sold its office and production facility at Patamäenkatu 7, Tampere, to Ab Sagax. The sold property previously housed Aamulehti's office premises and printing facilities, although in recent years Alma Media has been leasing the entire premises to external tenants. Before the sale, the property was classified as an investment property according to the IAS 40 standard on Investment Property.

In August 2018, Alma Media's subsidiary Alma Career announced its decision to close down the Monsterpolska.pl and Monster.hu recruitment service sites. The operations of the companies, Monster Worldwide Polska SP. Z.o.o. in Poland and Monster Magyarorszag Kft in Hungary, were gradually discontinued by the end of 2018.

Also in August, Alma Media's subsidiary Alma Media Kustannus Oy divested the Luoteisväylä newspaper, published in Noormarkku in Pori, to Viestintä Vallin Oy.

Raksa ja KotiKauppa Oy came under full ownership of Alma Mediapartners, a subsidiary of Alma Media, in November. The company provides ERP systems for construction and renovation. Alma Mediapartners previously held a 51 per cent stake in the company.

### Capital expenditure

Alma Media Group's capital expenditure in January–December 2018 totalled MEUR 22.1 (22.2). The capital expenditure mainly consisted of the acquisitions of Käyttösofta Oy, Autojerry Oy and Ahorouta Oy as well as the acquisition of shares in Etua Oy. The capital expenditure also includes normal operating and maintenance investments.

Alma Media Corporation's Annual General Meeting decided on 14 March 2018 that the rights to the company's shares entered in the joint book-entry account and the rights attached to them shall be forfeited. The decision concerned the 198,658 shares of Alma Media Corporation that were entered in the joint account on the date of the Notice to the Annual General Meeting, 14 February 2018, and which were held as paper certificates by the shareholder. The shares that the shareholder would have validly requested to be registered to the book-entry account designated by the shareholder no later than at 12 noon EET on 14 March 2018 and regarding which the request for conversion after the conversion period would have been finalised by 30 September 2018, would have been deducted from the aforementioned number of shares. Alma Media received no requests for share registration by the specified deadline.

The AGM authorised the Board to take any and all measures required by the resolution. The provisions on treasury shares were applied to the forfeited shares in accordance with Chapter 3, Section 14 a, Subsection 3 of the Limited Liability Companies Act. The forfeited shares may be used to implement incentive programmes for the management or key employees, or the shares may be annulled.

Alma Media Corporation owns a total of 236,314 of its own shares, representing 0.24 per cent of the total number of the company's shares and related votes. The total registered number of Alma Media's shares is 82,383,182, which entitle to 82,383,182 votes.

The AGM held on 14 March 2018 authorised the Board of Directors to decide on the repurchase of a maximum of 824,000 shares in one or more lots. The proposed maximum authorised quantity represents approximately one per cent of the company's entire share capital. Shares can be purchased for the purpose of improving the company's capital structure, financing or carrying out corporate acquisitions or other arrangements, implementing incentive schemes for the management or key employees, or to be otherwise transferred or cancelled. It is proposed that the authorisation be valid until the following AGM, but not later than 30 June 2019.

The AGM of 14 March 2018 authorised the Board of Directors to decide on a share issue by transferring shares in possession of the company. A maximum of 824,000 shares may be issued on the basis of this authorisation. The proposed maximum authorised quantity represents approximately one (1) per cent of the company's entire share capital. The authorisation entitles the Board to decide on a directed share issue, which entails deviating from the pre-emption rights of shareholders. The Board can use the authorisation in one or more parts. The Board of Directors can use the authorisation to implement incentive programmes for the management or key employees of the company. The authorisation is valid until the following AGM, but not later than 30 June 2019.

The AGM of 14 March 2018 authorised the Board of Directors to decide on a share issue. The authorisation entitles the Board to issue a maximum of 16,500,000 shares. The proposed maximum number of shares corresponds to approximately 20 per cent of the total number of shares in the company. The share issue can be implemented by issuing new shares or transferring shares now in possession of the company. The authorisation entitles the Board to decide on a directed share issue, which entails deviating from the pre-emption rights of shareholders. The Board can use the authorisation in one or more parts. The Board can use the authorisation for developing the capital structure of the company, widening the ownership base, financing or realising acquisitions or other arrangements, or for other purposes decided on by the Board. The authorisation cannot, however, be used to implement incentive programmes for the management or key employees of the company. The authorisation is valid until the following AGM, but not later than 30 June 2019.

Alma Media has a long-term share-based incentive scheme for key management (LTI 2015) based on a decision by the Board of Directors announced in a stock exchange release on 27 February 2015. LTI 2015 consists of annually commencing individual plans, each subject to separate Board approval. Each of the individual plans consists of three main elements: an investment in Alma Media shares as a precondition for participation in the scheme, matching shares based on the said share investment and the possibility of earning performance-based matching shares.

In the matching share plan, the participant receives a fixed amount of matching shares against an investment in Alma Media shares. The participant receives two matching shares for each invested share free of charge after a two-year vesting period, provided that the other conditions stipulated for the receipt of the share-based incentive by the terms of the plan are still satisfied at the time.

The performance matching plan comprises a five-year performance period in total. The potential share rewards will be delivered in tranches after three and five years if the performance targets set by the Board of Directors are attained.

The performance measures used in the performance matching plan are based on the company's profitable growth and share value. If the performance targets set by the Board of Directors are attained in full, the participant will receive in total four matching shares for each invested share free of charge, provided that the other conditions stipulated for the receipt of the share-based incentive by the terms of the plan are still satisfied at the time.

The Board of Directors of Alma Media Corporation has decided on the following share-based incentive schemes for the next three years based on the LTI 2015 scheme: LTI 2015 II (2016), LTI 2015 III (2017) and LTI 2015 IV (2018). The main terms of the incentive schemes correspond to those of the share-based incentive scheme that was launched in 2015.

The Board of Directors has estimated that no new shares will be issued in connection with LTI 2015. Therefore, the plan will have no dilutive effect on the number of the company's registered shares.

In December 2018, the Board of Directors of Alma Media Corporation decided on changes to the share-based, long-term incentive scheme of the company's top management. At the same time, the Board of Directors decided to establish a new share-based long-term incentive scheme for the other key employees of Alma Media Corporation. The new incentive schemes, LTI 2019, entered into effect from the beginning of 2019.

## Flagging notices

On 16 November 2018, Alma Media Corporation received a notification pursuant to Chapter 9, Section 5 of the Finnish Securities Markets Act, that Otava Oy's holding of the shares and votes in Alma Media Corporation had exceeded the threshold of 25 per cent and amounted to 29.04% (10,003%).

On 16 November 2018, Alma Media Corporation received a notification pursuant to Chapter 9, Section 5 of the Finnish Securities Markets Act, that Ilkka-Yhtymä Oyj's holding of the shares and votes in Alma Media Corporation had decreased under the threshold of 15 per cent and amounted to 10.92% (29,96%).

## Risks and risk management

At Alma Media Group, the task of risk management is to detect, evaluate and monitor business opportunities, threats and risks to ensure the achievement of objectives and business continuity. The risk management process identifies and controls the risks, develops appropriate risk management methods and regularly reports on risk issues to the risk management organisation and the Board of Directors. Risk management is part of Alma Media's internal control function and thereby part of good corporate governance.

The most critical strategic risks for Alma Media are a significant drop in its print newspaper readership and a decrease in the online audience of digital media, a permanent decline in advertising sales and a significant increase in distribution and delivery costs. The group subscriptions of the major financial and technology-related magazines are significant in scale. Changes to the subscription agreements could have a substantial impact on the magazines' total subscription volumes. The media industry is undergoing changes following the transformation in media consumption and technological development. An increasingly important source of competitive advantage, but also a strategic risk, in Alma Media's business is the ability to use customer data to improve the product and service offering for advertisers and enrich end user services. Alma Media will manage customer data and behavioural data by centralising customer data repositories and deploying analysis and activation technology, taking regulatory requirements into consideration. As technology advances and the focus of media consumption shifts to digital channels, Alma Media is responding to the transformation of the operating environment by developing digital products and services for consumers and businesses.

Fluctuating economic cycles are reflected in the development of advertising sales. Advertising sales account for approximately half of the Group's revenue. Business operations outside Finland, such as in Eastern and Central European countries, include country-specific risks relating to market development and economic growth. The expansion of business outside Finland has reduced the risks inherent in operating in one market area.

Disturbances of information technology and communications as well as disruption of printing are the most important operational risks.

## Events after the financial year

No significant events deviating from normal business operations have taken place after the end of the financial year.

## Main accounting principles (IFRS)

This Financial Statements Bulletin has been prepared according to IFRS standards (IAS 34). The Financial Statements Bulletin applies the same accounting principles and calculation methods as the annual accounts dated 31 December 2018 and the new and revised IFRS standards described in the 2017 financial statements. The Financial Statements Bulletin does not, however, contain all the information or notes to the accounts included in the annual financial statements. This report should therefore be read in conjunction with the company's financial statements for 2018. This Financial Statements Bulletin applies the same accounting principles as the consolidated financial statements, with the exception of the following new standards adopted at the start of the financial year:

IFRS 9 *Financial Instruments* addresses the classification, measurement and derecognition of financial assets and liabilities. It also introduces changes to the rules governing hedge accounting as well as a new impairment model for financial assets. The new rules have been applied by the Group retrospectively starting from 1 January 2018 in such a way as to take advantage of the practical expedients provided by the standard. The comparison figures for 2017 are not adjusted. The most significant impacts of IFRS 9 adoption in the Group are related to the impairment of trade receivables and the classification of financial assets and liabilities, which is based on business models defined by the Group's management.

In recognising expected credit losses, the Group applies the simplified approach defined in IFRS 9, according to which lifetime expected credit losses can be recognised for all trade receivables. For the purposes of determining expected credit losses, trade receivables have been grouped on the basis of shared credit risk characteristics and delinquency in payment. The MEUR 0.2 increase in the loss allowance related to trade receivables reduces the opening balance of retained earnings on 1 January 2018.

The amendment to IFRS 2 *Share-based Payment* concerns incentive schemes with a net settlement feature to cover withholding tax obligations and where the employer has an obligation to withhold tax from the received benefit on the share-based payment. Under the previous standard, the payment was divided into an equity-settled component and a cash-settled component. According to the amended standard, the entire scheme is treated as an equity-settled payment, and the compensation cost is recognised based on the number of gross shares awarded in spite of the employee ultimately only receiving the net shares and the Group paying the portion required for meeting the withholding obligations in cash to the tax authorities. The withholding tax paid by the Group to the tax authorities is recognised directly in equity.

The Group's financial statements for 2017 included MEUR 1.6 in short-term liabilities related to the cash-settled component. Due to the amendment to the standard, this component has been adjusted in the opening balance sheet by moving it from liabilities to retained earnings.

IFRS 16 *Leases* (effective for financial periods beginning on or after 1 January 2019). Under the new standard, all leases except short-term leases with a term of less than 12 months and leases of low-value assets will be recognised on the balance sheet as right-of-use assets. Operating leases and finance leases will no longer be differentiated between. The change will move off-balance sheet obligations to the balance sheet and thus increase the amount of property, plant and equipment as well as liabilities. Lessor accounting will not be subject to significant changes.

The concepts of agreements processed as off-balance sheet liabilities and the concepts used in IFRS 16 are somewhat different from each other, which is why the number of agreements recognised on the balance sheet may differ from the number of off-balance sheet liabilities. The lease contracts recognised on the balance sheet are mainly for business premises and cars. Leases for IT equipment, on the other hand, are treated as off-balance sheet obligations, unlike under the current IAS 17 standard.

Alma Media has begun preparing for the adoption of the standard and assessed the impact of its adoption by the Group. The change will have an impact on the consolidated financial statements. The change will also affect balance sheet indicators, such as gearing.

IFRS 15 *Revenue from Contracts with Customers* includes a five-stage framework for the recognition of revenue from contracts with customers. It replaces the previous standards governing revenue, such as IAS 18 Revenue and IAS 11 Construction Contracts. According to IFRS 15, an entity shall recognise revenue at an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Revenue can be recognised over time or at a point in time, with the criterion being the transfer of control.

Alma Media adopted IFRS 15 Revenue from Contracts with Customers on 1 January 2018, leading to a change in the accounting principles used in the consolidated financial statements. The Group has applied IFRS 15 non-retrospectively, using the practical expedient permitted by the standard. Accordingly, the comparison figures for 2017 have not been adjusted. The adoption of the standard has not resulted in adjustments to items reported in the financial statements or any entries to retained earnings in the financial year 2018. In the financial statements for 2016, Alma Media adjusted the recognition of revenue related to the recruitment business, as part of the Group's advance preparation for the adoption of IFRS 15.

The key indicators are calculated using the same formulae as applied in the previous annual financial statements. The quarterly percentages of Return on Investment (ROI) and Return on Equity (ROE) have been annualised using the formula  $((1 + \text{quarterly return})^4 - 1)$ . The percentage of digital business of revenue is calculated as digital business/revenue \* 100. The figures in this Financial Statements Bulletin are independently rounded.

## Alternative Performance Measures

Alma Media Corporation additionally uses and presents Alternative Performance Measures to better illustrate the operative development of its business and to improve comparability between reporting periods. The Alternative Performance Measures are reported in addition to IFRS key figures.

The Alternative Performance Measures used by Alma Media Corporation are the following:

Adjusted operating profit (MEUR and % of revenue)	Profit before tax and financial items excluding adjusted items
Adjusted EBITDA	Operating profit excluding depreciation, amortisation, impairment losses and adjusted items

Items adjusting operating profit are income or expense arising from non-recurring or rare events. Gains or losses from the sale or discontinuation of business operations or assets, gains or losses from restructuring business operations as well as impairment losses of goodwill and other assets are recognised by the Group as adjustments. Adjustments are recognised in the profit and loss statement within the corresponding income or expense group.

Interest-bearing net debt (MEUR)	Interest-bearing debt — cash and cash equivalents
----------------------------------	---

The figures in this release are unaudited.

## Seasonality

The Group recognises its content revenue from publishing activities as paid. For this reason, content revenues accrue in the income statement fairly evenly during the four quarters of the year. The bulk of newspaper subscription invoicing takes place at the beginning of the year and, therefore, the cash flow from operating activities is the strongest early in the year. This also affects the company's balance sheet position in different quarters.

## General statement

This report contains certain statements that are estimates based on the management's best knowledge at the time they were made. For this reason, they contain a certain amount of risk and uncertainty. The estimates may change in the event of significant changes in the general economic conditions.
