The proposal by the Board of Directors to the AGM

On December 31, 2012, the Group’s parent company had distributable funds totalling EUR 8,014,054 (51,941,032). No essential changes in the company’s financial standing have taken place after the end of the financial year.

The Board of Directors will propose to the Annual General Meeting that a dividend of EUR 0.10 (0.40) per share be paid for the 2012 financial year.

Based on the number of shares on the closing date, December 31, 2012, the total dividend distribution would amount to EUR 7,548,685 (30,194,741).
Outlook statement

Feb. 15, 2013

The general uncertainty prevailing in the Group’s principal markets, as well as the shift in media consumption from print media to electronic channels, make it difficult to forecast the development of the advertising and circulation revenues. The share of digital services in the media market will continue.

Economic growth is estimated to remain weak in Europe in the early part of 2013. The increase in the sales of digital services is not enough to cover the drop in the sales of print media.

Alma Media estimates that the company’s revenue and operating profit, excluding non-recurring items, will decrease in the first half of 2013 from the level of the corresponding period in 2012. The revenue for the first half of 2012 was MEUR 162.2 and operating profit, excluding non-recurring items, was MEUR 16.1.
