Dividend proposal to the Annual General Meeting:

On 31 December 2017, the Group's parent company had distributable funds totalling EUR 134,532,841 (124,646,114). Alma Media's Board of Directors proposes to the Annual General Meeting that a dividend of EUR 0.24 per share (2016: EUR 0.16 per share) be paid for the financial year 2017. Based on the number of outstanding shares on the closing date 31 December 2017, the dividend payment totals EUR 19,733,564 (13,181,309).

No essential changes have taken place after the end of the financial year with respect to the company's financial standing. The proposed distribution of profit does not, in the view of the Board of Directors, compromise the company's liquidity.

Operating environment in 2018

The Finnish economy is expected to experience strong growth in 2018. Alma Media's significant operating countries in Eastern Central Europe, such as the Czech Republic and Slovakia, are expected to see economic growth of 3–4%. The structural transformation of the media will continue in 2018; online content sales will grow, while the demand for print media will decline.

Outlook for 2018

In 2018, Alma Media expects its full-year revenue to remain at the previous year's level and its adjusted operating profit to increase from the 2017 level. The full-year revenue for 2017 was MEUR 367.3, and the adjusted operating profit was MEUR 51.1.

Kai Telanne, President and CEO

In 2017, Alma Media's operative performance was good, and we achieved all three of our long-term financial targets. Full-year revenue grew by 4 per cent to MEUR 367 and adjusted operating profit increased by 45 per cent to MEUR 51. Earnings per share increased by 90 per cent to EUR 0.39. The Board of Directors proposes to the Annual General Meeting that a dividend of EUR 0.24 per share be paid.

Organic revenue growth continued in the last quarter of 2017 as planned. Revenue grew by 4 per cent in October—December and amounted to MEUR 97.1. Adjusted operating profit grew by 6 per cent to MEUR 11.3 year-on-year. In order to secure our leading position as a provider of digital multimedia services in the future, we continued our investments in product development and marketing at the end of the year.

In the Alma Markets segment, the basic business was supported by the continued strong economic development in Eastern Central Europe and the Finnish economy returning to growth. The business segment also implemented highly active sales efforts and expanded its product portfolio. Costs were increased by investments in sales and marketing as well as the development of online services, such as the renewed Etuovi online service.

The Alma Talent segment's revenue in October-December was on a par with the previous year, but the business unit's profitability was weighed down by costs allocated to the fourth quarter. Alma Talent' aims to increase digital content sales and seek synergies between the unit's different business operations. The Talouselämä online service was renewed during the review period, and the positive content synergy between the book and training business increased the sales of training.

In the Alma News & Life segment, digital advertising saw strong growth and was at a record level in October—December. Growth was especially strong in mobile and content marketing. The development can be attributable to major advertisers shifting from print media to national digital media. Digital business now constitutes more than half of the segment's revenue. Content revenue declined in October—December due to a decrease in Iltalehti's print circulation.

In Alma Regions, measures to ensure the profitability of publishing operations continued in the last quarter of the year. The structural transformation of advertising was clearly demonstrated in the decline of regional newspaper advertising. Content revenue decreased slightly as a result of the sale of newspapers in Pohjois-Pohjanmaa, but the investment in the growth of digital subscriptions progressed according to plan.

The Finnish economy experienced a strong growth spurt in 2017, but this was not reflected in the long-awaited revival of the advertising market. According to TNS Kantar, investments in media advertising declined in 2017 by 2.8 per cent to 0.9 billion euros. Increasing investments in advertising would strengthen Finland's competitiveness in the long term. International platform operators account for around half of the Finnish digital advertising market. A positive aspect of this development is that, unlike in many other countries, the growth of these operators has not accelerated towards the end of the year in the Finnish advertising market.

An increasingly crucial factor in our growth is our rapidly growing and extremely profitable international business. The Czech Republic, Slovakia and Croatia were among the fastest growing countries in 2017. Our operations outside of Finland accounted for 23 per cent of our revenue and 39 per cent of our operating profit.

Strategy and related activities during the review period

The main directions of Alma Media's strategic development include developing and expanding existing business operations as well as growth in new business areas and markets through both organic growth and acquisitions. During the review period, the implementation of strategy was focused on developing the existing business operations.

The cornerstones of the development of the Group's business operations during the review period were multichannel content, marketing and advertising solutions, digital services and improving resources and competencies.

During the review period, Alma Media established a joint eCom team between the business units to develop digital subscription sales as well as increase and share knowledge related to content e-commerce. With the support of the eCom team, the digital customer path is actively managed in order to increase reader loyalty and subscription propensity. The eCom team also enables Alma-level campaigns and measures to be implemented more easily.

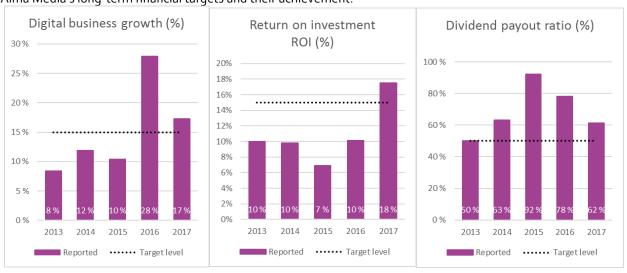

Content marketing is currently one of the fastest growing areas in marketing and one of Alma Media Solutions' focus areas in addition to mobile advertising and programmatic buying. Alma Media has considerably diversified its content marketing services to its advertising customers. Marketing integrated into Alma's media, such as content entities originating from the customer, individual articles supplied by advertisers and native solutions that direct the audience to the customer's own media are now complemented by videos and supported by social media channels.

As part of the development of digital services, Alma News & Life launched a new online store for its Matkapörssi service during the review period. The reservation system of the online travel agency makes it easy to buy package tours, flights and hotel accommodation from any device. Additional services, such as transport services, seat reservations and travel insurance, can also be bought as part of the booking process.

The cooperation negotiations conducted to secure the profitability of Alma Regions' publishing business and streamline its operations were concluded in November. As a result of the negotiations, the number of employees was reduced by 35 person-years. Most of the reductions were implemented through severance packages or retirement solutions. The total reductions will be realised no later than by autumn 2018. The negotiations concerned all employee groups in the publishing business, excluding the newspaper business of Alma Lappi, Alma Manu and the employees of Lännen Media.

The strategy of Alma Media's Czech subsidiary LMC is to offer the best possible tools for the users of its recruitment services, whether they are jobseekers or employers. In addition to its basic recruitment business, LMC has expanded its product portfolio to include mobile services that take advantage of social media, such as a service focusing on recommendations from colleagues and conveniently sharing of job advertisements on social media. During the review period, LMC launched a similar employer rating service, Atmoskop. In this service, employees can share their reviews on employers and companies' corporate cultures. A positive and strong employer image plays an increasingly important role in the Czech job market to reach the most skilled and hard-to-find candidates.

Alma Media's main markets in Eastern Central Europe are the Czech Republic and Slovakia. According to the European Commission's forecast, the Czech GDP will grow by 3% in 2018. The Czech National Bank estimates that the GDP will grow by 3.4% in 2018. In Slovakia, GDP growth in 2018 will be 3.8% according to the European Commission. The National Bank of Slovakia estimates GDP growth in 2018 to be 4.3%.

Changes in Group structure in 2017

Alma Mediapartners, a subsidiary of Alma Media, acquired the remaining share capital to become the full owner of Urakkamaailma.fi in February 2017. Urakkamaailma.fi was previously consolidated into the Group's financial statements. Alma Media Group owns 65 per cent of the Alma Mediapartners group.

Alma Talent Oy, a part of Alma Media, acquired full ownership of Oy Mediuutiset Ab in June 2017. Prior to the acquisition, Alma Talent held a 50% stake in Mediuutiset. The seller was Bonnier Business Press Ab, which is part of the Bonnier Group.

In July 2017, Alma Mediapartners Oy acquired 25 per cent of the share capital of Muuttomaailma Oy, which offers competitive tender services for moving houses.

Group revenue and result for October-December 2017

The Group's fourth-quarter revenue increased by 3.7% to MEUR 97.1 (93.6).

Content revenue declined by 2.4% to MEUR 32.4 (33.3). The year-on-year decline in content revenue was attributable to lower print media circulations and book sales. The increase in content revenue from digital distribution channels was not sufficient to cover the decline in print media content revenue.

Revenue from advertising sales increased by 9.5% to MEUR 50.2 (45.8). Advertising sales for print media decreased by 7.9% from the comparison period, to MEUR 16.5 (17.9). Digital advertising sales increased by 18.9% to MEUR 32.9 (27.7).

Service revenue totalled MEUR 14.5 (14.5). Service revenue includes items such as the sale of information services, the event and direct marketing business and the printing and distribution services sold to customers outside the Group by Alma Manu.

Adjusted total expenses increased in the fourth quarter by MEUR 3.8. The increase in expenses was attributable to investments in the development and marketing of online services. Depreciation and impairment included in the total expenses amounted to MEUR 8.4 (7.7).

Adjusted operating profit was MEUR 11.3 (10.6), or 11.6% (11.3%) of revenue. Operating profit was MEUR 5.8 (6.2), or 6% (6.7%) of revenue. The operating profit includes net adjusted items in the amount of MEUR -5.4 (-4.4) related to restructuring and gains on the sale of assets. The non-recurring items in the comparison period were also related to gains on the sale of assets and restructuring costs.

The result for October–December 2017 was MEUR 4.4 (4.9), and the adjusted result was MEUR 9.8 (9.3).

Group revenue and result full year 2017

Revenue increased by 4.0% to MEUR 367.3 (353.2) in 2017.

Content revenue declined by 1.9% to MEUR 125.8 (128.3). Content revenue declined due to the decline of print subscriptions and single-copy sales. The increase in content revenue from digital distribution channels was not sufficient to cover the decline in print media content revenue.

Revenue from advertising sales increased by 8.3% to MEUR 185.8 (171.6). Advertising sales for print media decreased by 8.5% from the comparison period, to MEUR 62.8 (68.5). Digital advertising sales increased by 19.0% to MEUR 120.5 (101.3).

Service revenue totalled MEUR 55.7 (53.3). Service revenue was increased by growth in the external sales of printing and distribution services.

Adjusted total expenses increased by MEUR 1.9, or 0.6%, to MEUR 320.8 (318.9). Depreciation and impairment included in the total expenses amounted to MEUR 20.3 (21.1).

Adjusted operating profit was MEUR 51.1 (35.2), or 13.9% (10.0%) of revenue. Operating profit was MEUR 46.6 (26.8), or 12.7% (7.6%) of revenue. The operating profit includes net adjusted items of MEUR -4.5 (-8.4).

The result for January-December 2017 was MEUR 36.7 (19.9), and the adjusted result was MEUR 41.2 (28.2).

Other decisions by the Annual General Meeting

Authorisation to the Board of Directors to repurchase own shares

The AGM authorised the Board of Directors to decide on the repurchase of a maximum of 824,000 shares in one or more lots. The proposed maximum authorised quantity represents approximately one (1) per cent of the company's entire share capital. The shares shall be acquired using the company's non-restricted shareholders' equity through trading in a regulated market arranged by Nasdaq Helsinki Ltd and in accordance with its rules and instructions, for which reason the acquisition is directed, in other words the shares will be purchased otherwise than in proportion to shareholders' current holdings. The price paid for the shares shall be based on the price of the company share in the regulated market, so that the minimum price of purchased shares is the lowest market price of the share quoted in the regulated market during the term of validity of the authorisation and the maximum price, correspondingly the highest market price quoted in the regulated market during the term of validity of the authorisation. Shares can be purchased for the purpose of improving the company's capital structure, financing or carrying out corporate acquisitions or other arrangements, implementing incentive schemes for the management or key employees, or to be otherwise transferred or cancelled. It is proposed that the authorisation be valid until the following AGM; however, until no later than 30 June 2018.

Authorisation to the Board of Directors to decide on the transfer of own shares

The AGM authorised the Board of Directors to decide on a share issue by transferring shares in possession of the company. A maximum of 824,000 shares may be issued on the basis of this authorisation. The proposed maximum authorised quantity represents approximately one (1) per cent of the company's entire share capital. The authorisation entitles the Board to decide on a directed share issue, which entails deviating from the pre-emption rights of shareholders. The Board can use the authorisation in one or more parts. The Board of Directors can use the authorisation to implement incentive programmes for the management or key employees of the company.

It is proposed that the authorisation be valid until the following AGM; however, until no later than 30 June 2018. This authorisation would override the corresponding share issue authorisation granted at the AGM of 17 March 2016.

Authorisation to the Board of Directors to decide on a share issue

The AGM authorised the Board of Directors to decide on a share issue. The authorisation entitles the Board to issue a maximum of 16,500,000 shares. The proposed maximum number of shares corresponds to approximately 20 per cent of the total number of shares in the company. The share issue can be implemented by issuing new shares or transferring shares now in possession of the company. The authorisation entitles the Board to decide on a directed share issue, which entails deviating from the pre-emption rights of shareholders. The Board can use the authorisation in one or more parts.

The Board can use the authorisation for developing the capital structure of the company, widening the ownership base, financing or realising acquisitions or other arrangements, or for other purposes decided on by the Board. The authorisation cannot, however, be used to implement incentive programmes for the management or key employees of the company.

It is proposed that the authorisation be valid until the following AGM; however, until no later than 30 June 2018.

The shares were acquired and paid for according to the rules and instructions of Nasdaq Helsinki Ltd and Euroclear Finland Ltd.

Alma Media Corporation conveyed a total of 67,272 treasury shares without consideration and according to the plan terms to the key management participating in the Fixed Matching Share Plan LTI 2015 I of the company's Long-Term Incentive Programme launched in 2015.

The directed share issue was based on an authorisation given by the Annual General Meeting held on 22 March 2017. Following the disposal of shares, the company holds 160,000 treasury shares.

Share-based incentive scheme (LTI 2015)

In 2015, the Board of Directors of Alma Media Corporation approved the establishment of a long-term share-based incentive scheme for the key management of Alma Media (hereinafter referred to as "LTI 2015").

The objective of LTI 2015 is to align the interests of the participants with those of Alma Media's shareholders by creating a long-term equity interest for the participants and, thus, to increase the company value in the long term as well as to drive performance culture, to retain participants and to offer them with competitive compensation for excellent performance in the company.

LTI 2015 consists of annually commencing individual plans, each subject to separate Board approval. Each of the individual plans consists of three main elements: an investment in Alma Media shares as a precondition for participation in the scheme, matching shares based on the above share investment and the possibility of earning performance-based matching shares.

The matching share plan

In the matching share plan, the participant receives a fixed amount of matching shares against an investment in Alma Media shares.

In the first matching share plan, which commenced in 2015 (LTI 2015 I), the participant receives two matching shares for each invested share free of charge after a two-year vesting period, provided that the other conditions stipulated for the receipt of the share-based incentive by the terms of the plan are still satisfied at the time.

The performance matching plan

The performance matching plan comprises a five-year performance period in total. The potential share rewards will be delivered in tranches after three and five years if the performance targets set by the Board of Directors are attained.

The performance measures used in the first performance matching plan, which commenced in 2015 (2015 LTI I), are based on the company's profitable growth and share value. If the performance targets set by the Board of Directors are attained in full, the participant will receive in total four matching shares for each invested share free of charge, provided that the other conditions stipulated for the receipt of the share-based incentive by the terms of the plan are still satisfied at the time.

Payment of the incentive is contingent on the participant holding on to the shares invested in the plan and remaining employed by the Group for the duration of the plans, until March 2017, 2018, 2019, 2020 and 2021. The incentives are paid partly in cash and partly in shares. The cash component is intended to cover taxes incurred by the participant from the incentive.

The fair value of the reward is expensed until the matching shares are paid. The fair value of the share component is determined on the date on which the target group has agreed to the conditions of the plan. The financing cost arising from the obligation to hold shares and dividends expected during the vesting period have been deducted from the value of the share. The fair value of the plan based on the total shareholder return of the share also takes the market-based earning criteria into consideration. The cash component of the incentive is remeasured on each reporting date during the vesting period based on the price of the share on the date in question.

Share-based incentive schemes started in 2016 and 2017

On 17 March 2016, the Board of Directors of Alma Media Corporation decided on a share-based incentive scheme to be launched in 2016 based on the LTI 2015 scheme (LTI 2015 II) and, on 22 March 2017, the Board made a corresponding decision on a share-based incentive scheme to be launched in 2017 (LTI 2015 III). The main terms of the incentive schemes correspond to those of the share-based incentive scheme that was launched in 2015.

Share-based incentive scheme LTI 2015	Based on share investment (shares max)	Performance matching (shares max)	Maximum number of people entitled to participate
Launched in 2015 LTI 2015 I	159,000	318,000	35
Launched in 2016 LTI 2015 II	195,000	390,000	43
Launched in 2017 LTI 2015 III	195,000	390,000	44

Other authorisations of the Board of Directors

The Board of Directors also has a share issue authorisation granted by the Annual General Meeting held on 22 March 2017. A maximum of 16,500,000 shares can be issued based on the authorisation. The maximum number of shares corresponds to approximately 20 per cent of the total number of shares in the company.

Market liquidity guarantee

The Alma Media share has no market liquidity guarantee in effect.

Flagging notices

The company did not receive any flagging notices during the fourth quarter of 2017.

Risks and risk management

At Alma Media Group, the task of risk management is to detect, evaluate and monitor business opportunities, threats and risks to ensure the achievement of objectives and business continuity. The risk management process identifies and controls the risks, develops appropriate risk management methods and regularly reports on risk issues to the risk management organisation and the Board of Directors. Risk management is part of Alma Media's internal control function and thereby part of good corporate governance.

The most critical strategic risks for Alma Media are a significant drop in its print newspaper readership and a decrease in the online audience of digital media, a permanent decline in advertising sales and a significant increase in distribution and delivery costs. The group subscriptions of the major financial and technology-related magazines

are significant in scale. Changes to the subscription agreements could have a substantial impact on the magazines' total subscription volumes. The media industry is undergoing changes following the transformation in media consumption and technological development. Alma Media's strategic objective is to meet this challenge by developing its digital business for consumers and businesses.

Fluctuating economic cycles are reflected in the development of advertising sales. Advertising sales account for approximately half of the Group's revenue. Business operations outside Finland, such as in Eastern and Central European countries, include country-specific risks relating to market development and economic growth. The expansion of business outside Finland has reduced the risks inherent in operating in one market area.

Disturbances of information technology and communications as well as disruption of printing are the most important operational risks.

Events after the review period

In January 2018, Alma Mediapartners, a subsidiary of Alma Media, acquired the remaining share capital to become the full owner of AutoJerry Oy, a previously consolidated company offering competitive tender services for car servicing. Alma Media Group owns 65 per cent of the Alma Mediapartners group.

In January 2018, Alma Media's subsidiary Alma Mediapartners Oy strengthened its software business related to construction and housing by acquiring the entire share capital of Käyttösofta Oy from its founders. Käyttösofta's revenue for 2017 was approximately EUR 1 million. The parties have agreed not to disclose the price of the transaction.

In January 2018, Alma Mediapartners Oy acquired Katsastushinnat.fi, a marketplace for comparing vehicle inspection services, by buying the share capital of Ahorouta Oy, the owner of the online service. The parties have agreed not to disclose the price of the transaction.

On 24 October 2016 Alma Media gave notice of the interruption option included in the rental agreement for the office and production facility in its use and its intention to redeem the property from DNB Bank ASA on Patamäenkatu 7 in Tampere. The property transaction, which is estimated at EUR 14.8 million, was carried out according to the earlier announcement on 30 October 2017.

The property is Aamulehti's old office and printing facility, and it is currently fully rented out. The lease ratio of the property is currently go per cent. The gross leasable area of the property is 18,500 sqm. The property is classified as an investment property according to the IAS 40 standard on Investment Property, and Alma Media will apply to the investment property the acquisition cost model in which the property is valued according to the acquisition cost less depreciation, which is based on the property's financial useful life. The excluded rental expenses from this deal and the new depreciations arising from it are approximately of the same size. The value of the property will be checked as part of Alma Media Group's regular impairment testing process.

Main accounting principles (IFRS)

This interim report has been prepared according to IFRS standards (IAS 34). The interim report applies the same accounting principles and calculation methods as the annual accounts dated 31 December 2016 and the new and revised IFRS standards described in the 2016 financial statements. The interim report does not, however, contain all the information or notes to the accounts included in the annual financial statements. This report should therefore be read in conjunction with the company's financial statements for 2016. The accounting principles of the financial years 2016 and 2017 are comparable. The company has no discontinued operations to report in the 2016–2017 financial periods.

The key indicators are calculated using the same formulae as applied in the previous annual financial statements. The quarterly percentages of Return on Investment (ROI) and Return on Equity (ROE) have been annualised using the formula ((1+quarterly return)⁴)-1). The percentage of digital business of revenue is calculated as digital business/revenue * 100. The figures in this interim report are independently rounded.

Alternative Performance Measures

Alma Media Corporation additionally uses and presents Alternative Performance Measures to better illustrate the operative development of its business and to improve comparability between reporting periods. The Alternative Performance Measures are reported in addition to IFRS key figures.

The Alternative Performance Measures used by Alma Media Corporation are the following:

Adjusted operating profit (MEUR and % of revenue)

Profit before tax and financial items excluding adjusted

items

Adjusted EBITDA

Operating profit excluding depreciation, amortisation, impairment losses and adjusted items

Items adjusting operating profit are income or expense arising from non-recurring or rare events. Gains or losses from the sale or discontinuation of business operations or assets, gains or losses from restructuring business operations as well as impairment losses of goodwill and other assets are recognised by the Group as adjustments. Adjustments are recognised in the profit and loss statement within the corresponding income or expense group.

Interest-bearing net debt (MEUR)

Interest-bearing debt — cash and cash equivalents

The figures in this release are unaudited.

Seasonality

The Group recognises its content revenue from publishing activities as paid. For this reason, content revenues accrue in the income statement fairly evenly during the four quarters of the year. The bulk of newspaper subscription invoicing takes place at the beginning of the year and, therefore, the cash flow from operating activities is the strongest early in the year. This also affects the company's balance sheet position in different quarters.

General statement

This report contains certain statements that are estimates based on the management's best knowledge at the time they were made. For this reason, they contain a certain amount of risk and uncertainty. The estimates may change in the event of significant changes in the general economic conditions.
