Dividend proposal for the Annual General Meeting:

On December 31, 2012, the Group's parent company had distributable funds totalling EUR 8,014,054 (51,941,032). No essential changes in the company's financial standing have taken place after the end of the financial year. The Board of Directors will propose to the Annual General Meeting that a dividend of EUR 0.10 (0.40) per share be paid for the 2012 financial year. Based on the number of shares on the closing date, December 31, 2012, the total dividend distribution would amount to EUR 7,548,685 (30,194,741).

Outlook for 2013:

The general uncertainty prevailing in the Group's principal markets, as well as the shift in media consumption from print media to electronic channels, make it difficult to forecast the development of the advertising and circulation revenues. The share of digital services in the media market will continue.

Economic growth is estimated to remain weak in Europe in the early part of 2013. The increase in the sales of digital services is not enough to cover the drop in the sales of print media. Alma Media estimates that the company's revenue and operating profit, excluding non-recurring items, will decrease in the first half of 2013 from the level of the corresponding period in 2012. The revenue for the first half of 2012 was MEUR 162.2 and operating profit, excluding non-recurring items, was MEUR 16.1.

Kai Telanne, President and CEO:

The general economic development in the main market, Finland, continued to be weak in the last quarter of 2012. Advertising investment continued to decline, and the shift from print media to electronic channels continued to accelerate. The circulations of subscription-based newspapers continued to decrease.

In the last quarter, Alma Media's revenue grew by 1.7% thanks to the revenues from the companies acquired during the financial year. In contrast, operating profit excluding non-recurring items decreased from the comparison period as the profitability of print media declined.

Alma Media's strategy is to increase the share of digital services in its revenue. During the year 2012, the company invested MEUR 72 in profitable, market-leading recruitment services in the Baltic countries, Czech Republic, Slovakia and some other eastern Central European countries. The takeover and integration of the acquisitions has proceeded excellently.

In Finland, Alma Media acquired the dating service e-Kontakti, as well as significant minority holdings in companies whose competencies will enrich the company's consumer and business service offering.

After these acquisitions, approximately one-quarter of Alma Media's 2012 revenue (MEUR 77.8) came from the sales of digital products and services.

The most wide-ranging operational change in 2012 was the founding of Alma Regional Media to tighten the cooperation between the company's regional and local papers, as well as the extensive operational changes related to this operation. Towards the end of the year, the regional papers of Ilkka-Yhtymä also joined the operational model based on nationwide joint editorial offices.

Alma Diverso, established for fostering the Group's digital business competencies and service development, initiated networked sales of digital advertising, among other initiatives.

Alma Media is determined to continue its competitiveness and operational change in the direction of multimedia. Fee-based content in electronic channels and mobile media consumption are the focal points in the development of the publishing business. The competitiveness of print media will be ensured through measures enhancing productivity and, among other things, product renewals made possible by the new printing facility in Tampere, starting operations in spring 2013. Development of digital consumer and business services will continue, accelerated through acquisitions if necessary.

The authorisation is valid until the following ordinary Annual General Meeting, however no longer than until June 30, 2013. This authorisation does not override the authorisation for a share issue resolved in the Annual General Meeting held on March 17, 2011.

The Board may use the authorisation for developing the capital structure of the company, widening the ownership base, financing or realising acquisitions or other similar arrangements, or for other purposes decided upon by the

Board. The authorisation may not, however, be used for incentive programmes for the management or key personnel of the company. The authorisation is in effect until March 17, 2013.

Option programme and share-based incentive plan

Alma Media has the option programme 2009 in effect. The programme is an incentive and commitment system for Group management. For the members of the Group Executive Team, the plan additionally includes one three-year performance period, the calendar years 2012–2014, based on the profitable growth of the Group. The potential reward from the performance period 2012–2014 will be paid partly in the company's shares and partly in cash one year and two years from the end of the performance period. Risks and risk management

The purpose of Alma Media Group's risk management activities is to continuously evaluate and manage all opportunities, threats and risks in conjunction with the company's operations to enable the company to reach its set objectives and to secure business continuity.

The risk management process identifies the risks, develops appropriate risk management methods and regularly reports on risk issues to the risk management organisation. Risk management is part of Alma Media's internal control function and thereby part of good corporate governance. Limits and processing methods are set for quantitative and qualitative risk methods by the corporate risk management system in writing.

The most critical strategic risks for Alma Media are a significant drop in its newspaper subscriptions, a decline in advertising sales and a significant increase in distribution and delivery costs. Fluctuating economic cycles are reflected on the development of advertising sales, which accounts for approximately half of the Group's revenue. Developing businesses outside Finland such as in the Baltic countries and other East European countries include country-specific risks relating to market development and economic growth.

In the long term, the media business will undergo changes along with the transformation in media consumption and technological developments. The Group's strategic objective is to meet this challenge through renewal and the development of new business operations in online media. The most important operational risks are disturbances in information technology systems and telecommunication, and an interruption of printing operations.

Events after the period

Alma Media's printing and distribution company, Alma Manu Oy, is planning the future of its newspaper printing facility in Rovaniemi, Finland, and therefore started statutory personnel negotiations in January 2013. The negotiations concern the entire staff of the Rovaniemi printing facility and mailing department, a total of 23 employees. The topic of the negotiations is the planning of the future for the Rovaniemi printing facility and the various options involved, as well as the possible measures affecting staff and the reasons, effects and alternatives of these measures.

Proposal by the Board of Directors for distribution of profit

The Board of Directors proposes to the ordinary Annual General Meeting that a dividend of EUR 0.10 (0.40) per share be paid for the financial year 2012. Based on the number of shares on the closing date, December 31, 2012, the dividend distribution would total EUR 7,543,685 (30,194,741).

On December 31, 2012, the Group's parent company had distributable funds totalling EUR 8,014,054 (51,941,032) of which profit for the period amounted to EUR -14.169.546 (+47,486,273). No essential changes in the company's financial standing have taken place after the end of the financial year. Dividends are paid to shareholders who are entered in Alma Media Corporation's shareholder register maintained by Euroclear Finland Oy no later than the record date, March 19, 2013. The dividend payment date is March 26, 2013.

The report by the Board of Directors, the financial statements and the auditors' report will be available on the company's website no later than February 21, 2013.

Alma Media's Annual General Meeting 2013 is estimated to be held on March 14, 2013.

Main accounting principles (IFRS)

This Financial Statement Release has been prepared according to IFRS standards (IAS 34). The interim report applies the same accounting principles and calculation methods as the annual accounts dated December 31, 2012. The annual report does not, however, contain all the information or notes to the accounts included in the annual financial statements. This report should therefore be read in conjunction with the company's financial statements for 2012. The accounting principles of the financial years 2012 and 2011 are comparable. The company has no discontinued operations to report in the 2012–2011 financial periods.

The key indicators are calculated using the same formulae as applied in the previous annual financial statements. In 2012, two new key indicators have been introduced; EBITDA excluding non-recurring items and EBITDA. EBITDA excluding non-recurring items is calculated with the formula: operating profit excluding non-recurring items + depreciations and write-downs excluding non-recurring items. EBITDA is calculated with the formula: operating profit + depreciations and write-downs. The quarterly percentages of Return on Investment (ROI) and Return on Equity (ROE) have been annualised using the formula ((1+quarterly return)4)-1). The figures in this financial statement release are independently rounded.

The Group has applied the following standards and interpretations as of January 1, 2012:

Change in IFRS7: Financial Instruments: Disclosures Change in IAS 12: Income Taxes

The impact of the new standards presented above on the Group has been marginal.

The figures in this annual report are unaudited.

Seasonality

The Group recognises its circulation revenues as paid. Therefore, circulation revenues accrue in the income statement fairly evenly during the four quarters of the year. The bulk of circulation invoicing takes place at the beginning of the year and therefore the cash flow from operating activities is strongest in the first and second quarters. This also affects the company's balance sheet position in different quarters.

General Statement

This report contains certain statements that are estimates based on the management's best knowledge at the time they were made. For this reason they contain a certain amount of risk and uncertainty. The estimates may change in the event of significant changes in the general economic conditions.

Next interim report

Alma Media will publish its interim report for January-March, 2013 on Friday, April 26, 2013, approximately at 9 a.m (EEST).
