Outlook for 2010:

Kai Telanne, President and CEO, on Alma Media's first quarter:

Advertising investments typically follow the general development of the economy. As no essential change took place in the development of the national economy during the first quarter of 2010, there was no significant change in advertising spending in comparison to previous year. In March, however, Alma Media's advertising sales was clearly more lively than in January and February.

The advertising sales of Alma Media's Newspapers segment grew only a little from the figures of the historically low comparison period. The advertising sales of the Kauppalehti Group rose close to the previous year's level thanks to positive development at the end of the quarter. The net sales of the Marketplaces segment turned up in the first quarter, mainly based on the distribution changes for the Etuovi newspaper and new newspapers launched in the cities Oulu and Lahti.

According to our forecasts, newspaper circulations developed neutrally or declined slightly. Circulation net sales for the newspapers remained almost at the previous year's level supported by price increases. Kauppalehti's 2009 circulation decreased as expected due to changes in the circulation structure and cancellations for corporate subscriptions prompted by the economic downturn.

Our online business, online advertising sales in particular, developed positively from the comparison period. The growth of online advertising was particularly strong in Kauppalehti.fi and Iltalehti.fi.

Alma Media is investing in the future of the printed newspaper. The company decided to start the modernisation of its printing facility in Tampere with a maximum investment of MEUR 50. According to plan, the new facility will be operational in the beginning of **2013**.

On March 29, 2010 we announced a corporate restructuring that will be important for the development of the Marketplaces business. Alma Media and Arena Partners Oy, a newspaper development company operating in Central Finland, will begin to cooperate in the nationwide marketplace business. The cooperation will cover the marketplace businesses of both companies in home, vehicle and consumer advertising. The finalisation of the arrangement requires approval by the competition authority, which is estimated to be received during the second quarter.

Alma Media's operating profit grew clearly from the comparison period, mainly due to cost savings and the positive development in advertising sales in March.

Business segments

This interim report reports the business segments according to the Group's new internal organisational structure. The structure of the segments was changed from the beginning of 2010 when Alma Media's printing and distribution operations were combined in a new group business unit. The new printing and distribution unit is reported outside the business segments Newspapers, Kauppalehti Group and Marketplaces as part of the new Other operations business segment. These operations were earlier included in the Newspapers segment. Additionally, the concept of net sales for Lehdentekijät, part of the Kauppalehti Group, has been specified, and the unit's net sales have been transferred from circulation net sales to other net sales of the Kauppalehti Group.

With the change in the composition of the reporting segments, Alma Media has, in accordance with the IFRS 8 Operating Segments standard, adjusted the corresponding items in segment information for the comparison period 2009. These adjustments are presented in the appendix. The stock exchange release (Change in the structure and composition of Alma Media's business segments) of April 27, 2010 presents the segment net sales and operating profit, segment key indicators as well as the assets, liabilities and investments of the Newspapers, Kauppalehti Group and Marketplaces segments according to both the old and the new segment composition, and a summary of the effects of the change for 2008 and 2009.

Risk management is part of Alma Media's internal audit function and thereby part of good corporate governance. Written limits and processing methods are set for quantitative and qualitative risks by the corporate risk management system.

The most critical strategic risks for Alma Media are a significant drop in the readership of its publications, a decline in advertising sales and a significant increase in distribution and delivery costs. Fluctuating economic cycles are reflected on the development of advertising sales, which accounts for approximately half of the corporation's net sales. Developing businesses outside Finland, such as the Baltic countries and other East European countries, include country-specific risks relating to market development and economic growth.

In the long term, the media business will undergo changes along with the changes in media consumption and technological developments. The Group's strategic objective is to meet this challenge through renewal and the development of new business operations in online media.

The most important operational risks are disturbances in information technology systems and telecommunication, and an interruption of printing operations.

Administration

Alma Media Corporation's ordinary Annual General Meeting (AGM) held on March 11, 2010 elected Lauri Helve, Kai Seikku, Erkki Solja, Kari Stadigh, Harri Suutari, Catharina Stackelberg-Hammarén and Seppo Paatelainen members of the company's Board of Directors. In its constitutive meeting held after the Annual General Meeting, the Board of Directors elected Kari Stadigh its Chairman and Seppo Paatelainen its Deputy Chairman. Except for Kari Stadigh, the Board of Directors has evaluated the persons elected for the Board of Directors to be independent of the company and its major shareholders. Kari Stadigh is evaluated to be independent of the company but not independent of a significant shareholder.

Mikko Korttila, General Counsel of Alma Media Corporation, was appointed secretary to the Board of Directors.

The AGM appointed Ernst&Young Oy as the company's auditors.

Oy Herttaässä Ab, a company holding more than 10% of the shares in Alma Media, proposed to the AGM that a special audit should be conducted regarding the operations of the Nomination and Compensation Committee of the Board of Directors of Alma Media Corporation for the last five years. The AGM considered the proposal, and as the shareholding of Oy Herttaässä Ab exceeds 10%, the proposal was recorded in the meeting minutes. On April 14, 2010, Alma Media received notification that Oy Herttaässä Ab has submitted an application for the special audit to the Regional State Administrative Agency of Southern Finland. The company will submit its answer by May 15, 2010.

Alma Media Corporation applies the Finnish Corporate Governance Code for listed companies, issued by the Securities Market Association on October 20, 2008, in its unaltered form. The statement on the company's administration and control system, as required by Recommendation 51 of the Code, is published separately.

This interim report reports the business segments according to the Group's new internal organisational structure. The composition and structure of the segments was changed from the beginning of 2010 when Alma Media's printing and distribution operations were combined in a new group business unit. The new printing and distribution unit is reported outside the business segments Newspapers, Kauppalehti Group and Marketplaces as part of the new Other operations business segment. The items for the comparison period 2009 are adjusted accordingly.

Alma Media's reporting segments are Newspapers, Kauppalehti Group, Marketplaces and Other operations. Other Operations segment comprises the Group's parent company and the operations of the Group's printing and distribution unit.

The descriptive section of the financial statements presents the revenue and operating profits of the Newspapers, Kauppalehti Group and Marketplaces segments and the allocation of the associated companies' results to the reporting segments. Financial items and income taxes are not allocated to the segments.

Main accounting principles (IFRS)

This interim report has been prepared according to IFRS standards (IAS 34).

The report applies the same accounting principles and calculation methods as the previous annual accounts dated December 31, 2009, with the exception of the standards and interpretations applied from January 1, 2010 as listed below. However, the interim report does not contain all the information or notes to the accounts included in the annual financial statements. This interim report should therefore be read in conjunction with the company's annual report.

The key indicators are calculated using the same formulae as applied in the previous annual financial statements. The quarterly percentages of Return on Investment (ROI) and Return on Equity (ROE) have been annualised using the formula ((1+quarterly return)⁴)-1). The figures in this interim report are independently rounded.

The accounting principles of the financial years 2010 and 2009 are comparable. The company has no discontinued operations to report in the 2009–2010 financial periods. The appendices summarise the information for the comparison periods by segment according to both the new and the old segment structure.

The Group has applied the following standards and interpretations from January 1, 2010:

IFRS 3 (2008) Business Combinations IAS 27 (2008) Consolidated and Separate Financial Statements IAS 39 Financial Instruments: Recognition and Measurement – Eligible Hedged Items, amended IFRIC 17 Distributions of Non-cash Assets to Owners IFRIC 18 Transfers of Assets from Customers Improvements to IFRSs (April 2009) IFRS 2 Share-based Payment – Group Cash-settled Share-based Payment Transactions, amended

The impact of the above new standards and IFRIC interpretations on the Group has been marginal. The amendments to IFRS 3 have affected the accounting of corporate acquisitions during the 2010 financial period, such as goodwill and costs related to the acquisitions.

New accounting standards to be adopted from the beginning of 2011 or later are:

IFRS 9 Financial Instruments, Phase 1 IAS 24 Related Party Disclosures (new) IAS 32 Financial Instruments: Presentation – Classification of Rights Issues (amendment) IFRIC 14 IAS 19 – The Limit on a Defined Benefit Asset, Minimum Funding Requirements and their Interaction

IFRIC 19 Extinguishing Financial Liabilities with Equity Instruments

The Group preliminarily expects that the above new standards and interpretations will have only a minor effect.

The figures in this interim report are unaudited.

Seasonality

The Group recognises its circulation revenues as paid. For this reason circulation revenues accrue in the income statement fairly evenly during the four quarters of the year. The bulk of circulation invoicing takes place at the beginning of the year and therefore the cash flow from operating activities is strongest in the first and second quarters. This also affects the company's balance sheet position in different quarters.

General statement

This report contains certain statements that are estimates based on the management's best knowledge at the time they were made. For this reason they contain a certain amount of risk and uncertainty. The estimates may change in the event of significant changes in the general economic conditions.

Next interim report

Alma Media will publish its financial statements for the first six months of the year on July 22, 2010 at 9:00am (EEST).
