ALMA MEDIA CORPORATION STOCK EXCHANGE RELEASE 23 July 2008 at 09.00 (EET)

ALMA MEDIA CORPORATION'S INTERIM REPORT FOR JANUARY – JUNE 2008: Second quarter net sales and operating profit at record level

April-June 2008 highlights:

- Net sales MEUR 89.3 (Q2/2007: MEUR 84.0)
- Operating profit MEUR 15.0 (MEUR 14.4)
- Operating profit 16.8 % of net sales (17.1 %)
- One-time item of capital gains of MEUR 0.6
- Profit before tax MEUR 15.7 (MEUR 14.8)
- Earnings per share EUR 0.16 (EUR 0.15)

Prospects for 2008 unchanged: net sales will increase and comparable operating profit will be similar to that in the previous year.

President and CEO Kai Telanne:

Alma Media's business during the second quarter developed well despite the increased uncertainty in the economy and in the media market. Our net sales increased more than 6 % and comparable operating profit improved on the strong performance in the comparable period in the previous year.

Media sales by the Group's newspapers increased encouragingly in the second quarter. Growth was particularly marked at Aamulehti, which recorded the best quarter in its history. Kauppalehti had a strong quarter in terms of both net sales and operating profit. Major factors here were the strong growth in Kauppalehti's media sales as well as vigorously growing circulation sales and the development of the online business. Instead, the declining market and rising costs continued to depress Iltalehti's profitability.

Developments in the online services of Alma Media's newspapers were positive. As summer approached, the number of weekly visitors to the Iltalehti and Kauppalehti websites settled at the levels they had previously reached. Media sales by these online services were growing well. The joint technology platform project by the regional and local newspapers will create a firm foundation for boosting the number of visitors to the online services of the other newspapers as well and for raising their media sales.

Growth in the net sales of Marketplaces slowed down slightly, mainly because home sales stopped growing in Estonia and the growth in job vacancy advertising in Finland slowed down in June. Our investments in the Mikko.fi business and the City24 home sales services reduced the operating profit of Marketplaces. The direction taken by the home sales and recruitment markets in Finland will affect the financial performance of Marketplaces in the final part of the year.

Alma Media Group's Interim Report January - June 2008

The descriptive part of this interim report concentrates on the Group's performance between April and June. Figures in brackets refer to the second quarter of 2007 unless otherwise stated. The figures in the tables are independently rounded.

Changes in Group structure compared to 2007

On 20 February 2008 Alma Media purchased the share stock of Jadecon Oy. The company's business comprises the TV programme information internet service Telkku.com and it is reported as part of Iltalehti in the Newspapers segment.

Group net sales and result January - June 2008

Consolidated net sales in the January – June 2008 period totalled MEUR 173.2 (MEUR 165.9). Net sales in the period for comparison included advertising for the general election held in March 2007 (MEUR 1.5). The Newspapers segment accounted for MEUR 118.5 of net sales, Kauppalehti group for MEUR 38.0 and the Marketplaces segment for MEUR 18.4.

The consolidated operating profit in January – June was MEUR 26.6 (MEUR 30.4). The operating profit for the period includes a one-time item of MEUR 0.6 from the sale of real estate. The operating profit for the period for comparison includes a one-time item of a capital gain of MEUR 1.9.

Group net sales and result April – June 2008

Alma Media's net sales increased 6.3 % in the April – June period from the corresponding period in the previous year to MEUR 89.3 (MEUR 84.0).

The consolidated operating profit was MEUR 15.0 (MEUR 14.4). The operating profit as a percentage of net sales was 16.8 % (17.1 %). The second quarter operating profit includes a one-time capital gain of MEUR 0.6.

Prospects for 2008

Alma Media keeps unchanged its forecast that the company expects its net sales to increase from the previous year. The media market is expected to grow in 2008, but uncertainty will increase. Changes in media advertising and the daily tabloid market are major factors that may affect the company's result.

Alma Media estimates that the comparable operating profit for the whole year will be similar to that in 2007. One-time items have been eliminated from the comparable 2007 operating profit.

Market conditions

The economy of Finland, Alma Media's main market area, is estimated to have grown at a rate of about 3 per cent in the first half of 2008 (Ministry of Finance, Economic Bulletin 2/2008). The bulletin states however that the economy is expected to weaken towards the end of the year and that growth for the whole of 2008 is likely to be less than 3 per cent. It considers that there is a serious risk of an even faster slowdown in growth in the rest of the year and next year. If the forecast slowdown in the national economy takes place, this can be expected to slow down growth in media advertising already in the remainder of 2008.

Expenditure on advertising in newspapers increased by 0.7 % in January – June 2008. Advertising in the online media increased 28.3 % during the same period. The daily tabloids market has declined 6.7 % since the beginning of the year.

The Newspapers segment reports the publishing activities of 34 newspapers. The largest of these are the regional paper Aamulehti and the daily tabloid Iltalehti.

The Newspapers segment's net sales rose by 3.9 % during the second quarter to total MEUR 61.2 (MEUR 58.9). The rate of growth in the net sales of individual newspapers continued to vary considerably. The biggest increases in net sales were achieved by Aamulehti, which recorded the best quarter in its history, and Lapin Kansa, which showed good growth. Iltalehti's net sales declined slightly due to its circulation and media sales, which continued to be weak.

Newspapers' circulation sales rose by 1.7 % in the second quarter. Aamulehti's circulation sales increased significantly, but those of Iltalehti fell, along with the continuing decline in the entire daily tabloid circulation market. The market declined altogether 6.7 % in January - June. Iltalehti had a market share in the second quarter of 43.2 % (43.0 %).

Media sales in the Newspapers segment grew by 7 % in the second quarter. Growth was particularly strong at Aamulehti and Lapin Kansa. Media sales at Iltalehti.fi increased at a good pace. Online advertising at the regional newspapers increased well, but in terms of actual euros is still at a low level.

The operating profit of the Newspapers segment improved by 2.1 % to MEUR 11.8 (MEUR 11.5). This improvement was largely due to the excellent result recorded by Aamulehti. Iltalehti's result was considerably weaker than in the previous year. Cost levels for Newspapers rose as forecast.

The Marketplaces segment reports Alma Media's classified services, which are produced on the internet and are supported by printed products. The services in Finland are Etuovi.com, Monster.fi, Autotalli.com, Mascus.fi and Mikko.fi. The services outside Finland are City24, Motors24, Mascus, Bovision and Objektvision.

The net sales of Marketplaces increased 18.2 % during the second quarter. A major part of the increase came from the strong sales at Etuovi.com. The rate of growth in net sales for Monster.fi weakened with the approach of summer, as businesses postponed their recruitment decisions until after the holiday period. Autotalli.com and Mascus.com grew encouragingly.

Growth in the home sales market in the Baltic countries came to a halt, which caused the net sales of the City24 service in Estonia to stop growing. In the new City24 countries, Croatia,

Poland and Ukraine recorded strong growth in the number of properties and visitors, whereas starting up sales at the Moscow City24 service was slower than expected. In Sweden the market position of Bovision remained challenging, whereas the business premise service Objektvision grew well.

The operating profit of Marketplaces decreased by MEUR 0.4 from the period for comparison in the previous year to MEUR 0.9. The operating profit of the classified services outside Finland was weakened by the slowdown in growth in net sales and the planned expenditure on personnel and marketing. The classified services in Finland improved their operating profit, but profitability was weakened by investments in the Mikko.fi service.

BUSINESS ACQUISITIONS JANUARY-JUNE 2008

On 20 February 2008 Alma Media acquired the entire share stock of Jadecon Oy. The company's business comprises the TV programme information internet service Telkku.com and it is reported in the Newspapers segment as part of Iltalehti.

The fair values for intangible assets recorded in combining Jadecon Oy are mainly related to brands, the acquired IT application and customer contracts. The anticipated synergies between Iltalehti and the acquired business contributed to the goodwill arising from the acquisition. The operating profit for the purchased business since the acquisition date has been MEUR 0.3. The Group's net sales in the first half of the year would have been an estimated MEUR 173.5 and operating profit MEUR 26.7 if the acquisition had taken place at the start of 2008.

CONTINGENT LIABILITIES

The Group has contingent liabilities totalling MEUR 7.8. The tax authorities have issued a claim to correct the company's income tax for 2003. The tax authorities consider that the loss arising from Alma Media's disposal of the shares of its associated company Talentum to Kauppalehti Oy at the market price should not have been tax-deductible. At the end of 2006 (20 December 2006) the company was informed of a ruling by the Adjustments Board of the Corporate Taxation Centre to the effect that the Adjustments Board rejected the claim by the tax authorities. The tax authorities have appealed the Adjustments Board's ruling to the Helsinki Administrative Court. The company continues to believe that it is improbable that the claim will lead to additional tax consequences since the transaction was carried out at market prices for commercial reasons. The decision of the Helsinki Administrative Court is expected during 2008.

RELATED PARTIES

Alma Media Group's related parties are its associated companies and the companies they own. The following table summarizes the operations undertaken between Alma Media and its associated companies and the status regarding their receivables and liabilities:

Related parties also include the company's senior management (Board of Directors, presidents and the Group Executive Team). The section Option Rights of this interim report presents information on changes to the current option scheme intended to motivate and secure the longterm commitment of the Group's senior management.

MAIN ACCOUNTING PRINCIPLES (IFRS)

This interim report has been prepared applying IFRS recognition and measurement principles (IAS 34 - Interim Financial Reporting).

The interim report applies the same accounting principles and calculation methods as in the previous annual accounts dated 31 December 2007. However, the interim report does not contain all the information or notes to the accounts included in the annual report. This interim report should therefore be read in conjunction with the company's annual report for 2007.

The key indicators are calculated using the same formulae as applied in the annual financial statements.

No new accounting standards or interpretations have been adopted during 2008. The following new accounting principles and interpretations will be applied from the beginning of 2009:

IFRS 8 Operating Standards IAS 23 Borrowing Costs, amendment to standard IAS 1 Presentation of Financial Statements, amendment to standard IFRIC 13 Customer Loyalty Programmes

The Group has initially estimated that the new standards and interpretations mentioned above will only have a small impact. It has been initially estimated that their application will mainly affect the presentation of the income statement, balance sheet and statement of changes in shareholders' equity as well as the notes to the financial statements.

A new accounting standard to be adopted from the beginning of 2010 is IFRS 3, Business Combinations (amendment to standard). The changes to IFRS 3 will affect the treatment of business acquisitions, concerning for example minority interest, goodwill and expenses relating to the acquisition. The amendment to IFRS 3 will not affect previous business acquisitions.

The Group's long-term receivable from associated company Acta Print Kivenlahti Oy is shown in the balance sheet under assets available for sale. Alma Media intends to relinquish its entire holding in Acta Print Oy. This divestment is not expected to have a significant impact on Alma Media's financial position.

The figures in this bulletin are unaudited.

SEASONALITY

The Group recognizes its circulation revenues as paid. For this reason circulation revenues accrue in the income statement fairly evenly during the four quarters of the year. The bulk of circulation invoicing takes place at the beginning of the year and therefore cash flow from operating activities is strongest early in the year. This also affects the company's balance sheet position in different quarters of the year.

USE OF ESTIMATES

This bulletin contains certain statements that are estimates based on management's best knowledge at the time they were made. For this reason they contain risks and uncertainty. The estimates could change in the event of significant changes in business conditions.

NEXT INTERIM REPORT

Alma Media publishes its results for the first nine months of 2008 at 9.00 am (EET) on 29 October 2008.
