#### Outlook for 2012:

Due to the uncertainty prevailing in the macroeconomic conditions of the Group's main markets, it is exceptionally complicated to estimate the development of circulation and advertising revenues. Digital services are expected to further increase their share of the media market. Alma Media expects that the change in value-added tax, effective since the beginning of 2012, may decrease the circulations of the Group's newspapers.

Alma Media repeats its estimate given in the interim report of July 20, 2012, according to which the company expects its full-year revenue for 2012 to increase from the 2011 level, primarily due to the acquisitions made. Operating profit excluding non-recurring items is expected to be lower than in 2011. Full-year revenue for 2011 was MEUR 316.2, operating profit excluding non-recurring items MEUR 42.9 and operating profit MEUR 42.0.

#### Kai Telanne, President and CEO:

The weakened national economy had a negative effect on the Finnish advertising market and therefore also on Alma Media's financial development in the third quarter.

In July–September, the total advertising spending declined by 5.3%, according to TNS Media Intelligence. The advertising volume of printed newspapers and local papers decreased by 8.8% (grew by 0.5%). Advertising in online media increased by 7.9% (20.3%) from the corresponding period in 2011. The circulations of printed papers continued to decline in the third quarter as expected.

In July–September, the revenue of Alma Media Group remained at the level of the corresponding period and amounted to MEUR 75.2. Online advertising sales of the Newspapers segment grew, in particular with the support of Iltalehti.fi's favourable development. Iltalehti.fi further strengthened its position in the growing markets of display advertising.

Kauppalehti's service and subscription model renewal, launched in May, has been well received among customers, which was reflected on the growth in the sales of the digital content services of the Kauppalehti Group in the third quarter.

Advertising sales in print media declined by 12.7% in July-September to MEUR 21.1 (24.2).

Alma Media's circulation revenue decreased by 7.5% in July–September as expected, mainly due to the decline in the single copy sales of afternoon tabloids, and was MEUR 30.0 (32.5).

Alma Media's strategy is to increase the share of digital business in its revenue. In line with this strategy, the company finalised corporate acquisitions in the Czech Republic and the Baltic countries at the turn of the year, and acquired E-Kontakti Oy in August. In the third quarter, digital products and services accounted for 24.4 (17.7)% of Alma Media's revenue.

Alma Media is presently in the middle of several change projects aiming at adapting to the structural change in the industry. One of the largest initiatives is the reorganisation of the Group's regional and local paper unit, Alma Regional Media, to strengthen the collaboration between the unit's 34 newspapers for better reader service. As part of the renewal of Alma Regional Media's operational model, Alma Regional Media and the newspapers Ilkka and Pohjalainen of Ilkka-Yhtymä agreed on wide-ranging operational content and development collaboration efforts in August. The letter of intent concerning the new collaboration was signed on August 30, 2012, and the new operational model being developed between the parties is intended to be in full operation from the beginning of 2014.

As a result of the statutory personnel negotiations in relation to the ongoing change projects, Alma Media's personnel decreases by a total of 155 full-time work years in January–September.

Alma Media's investment in the new printing facility in Tampere, Finland, is progressing as planned, with equipment installation already going on. The new facility will be operational in the first quarter of 2013. From the beginning of 2014, it will produce three seven-day regional papers in addition to its other products as the printing of the newspaper Hämeen Sanomat appearing in Hämeenlinna will be transferred to Alma Media as agreed in a letter of intent signed in September.

The closing price of the Alma Media share at the end of the last trading day of the reporting period, September 28, 2012, was EUR 4.86. The lowest quotation during the reporting period was EUR 4.35 and the highest EUR 5.19. Alma Media Corporation's market capitalisation at the end of the review period was MEUR 366.9.

The Annual General Meeting of Alma Media Corporation on March 14, 2012 authorised the Board of Directors to repurchase a maximum of 1,000,000 of the company's shares, corresponding to approximately 1.4 per cent of the company's total number of shares. The shares will be repurchased at the market price in public trade on NASDAQ OMX Helsinki using the company's non-restricted equity, which will decrease the disposable funds of the company for the distribution of profit. The price paid for the shares shall be based on the price of the company's shares in public trade with the minimum price of the shares to be purchased being the lowest quoted market price in public trade during the validity of the authorisation and the maximum price the highest quoted market price during the validity of the authorisation. The shares can be repurchased for the purpose of developing the capital structure of the company, or financing or implementing of corporate acquisitions or other arrangements, or implementing of the incentive programmes for the management or key personnel of the company, or to be otherwise disposed of or cancelled. The authorisation is valid until the following ordinary Annual General Meeting, however no longer than until June 30, 2013.

The Annual General Meeting of Alma Media Corporation on March 14, 2012 authorised the Board of Directors to decide on a share issue by transferring shares in possession of the company. The authorisation entitles the Board to issue a maximum of 1,000,000 shares, corresponding to approximately 1.4 per cent of the total number of shares of the company. The authorisation entitles the Board to decide on a directed share issue, which would entail deviating from the pre-emption rights of shareholders. The Board may use the authorisation in one or more parts. The authorisation may be used to implement incentive programmes for the management or key personnel of the company. The authorisation is valid until the following ordinary Annual General Meeting, however no longer than until June 30, 2013. This authorisation does not override the authorisation for a share issue resolved in the Annual General Meeting held on March 17, 2011.

The Annual General Meeting of Alma Media Corporation on March 17, 2011 authorised the Board of Directors to decide on a share issue. The authorisation entitles the Board to issue a maximum of 7,500,000 shares. This maximum amount of shares corresponds to approximately 10% of the total number of shares of the company. The share issue can be implemented by issuing new shares or transferring shares in possession of the company. The authorisation entitles the Board to decide on a directed share issue, which would entail deviating from the pre-emption rights of shareholders. The Board may use the authorisation in one or more parts. The Board may use the authorisation for developing the capital structure of the company, widening the ownership base, financing or realising acquisitions or other similar arrangements, or for other purposes decided upon by the Board. The authorisation may not, however, be used for incentive programmes for the management or key personnel of the company. The authorisation is in effect until March 17, 2013.

#### **Option rights**

Alma Media has the option programmes 2006 and 2009 in effect. The programmes are incentive and commitment systems for Group management. If all the subscription rights are exercised, the programmes 2006 and 2009 will dilute the holdings of the earlier shareholders by a maximum of 2.74%. Further details about the programmes are given in the notes to this Interim Report.

The Board of Directors of Alma Media Corporation has resolved on a new share-based incentive plan for the Group key employees. The new Performance Share Plan consists of three performance periods, the calendar years 2012, 2013 and 2014. The Board of Directors will decide on the plan's performance criteria and their

targets at the beginning of each performance period. The potential reward from the plan for the performance period 2012 will be based on Alma Media Group's profitability, and it will be paid partly in the company's shares and partly in cash in 2013. For the members of the Group Executive Team, the plan additionally includes one three-year performance period, the calendar years 2012–2014, based on the profitable growth of the Group. The potential reward from the performance period 2012–2014 will be paid partly in the company's shares and partly in cash one year and two years from the end of the performance period. The Performance Share Plan includes approximately 25 persons.

#### Other authorisations of the Board of Directors

The Board of Directors has no other current authorisations to raise convertible loans.

#### Market liquidity guarantee

There is no market liquidity guarantee in effect for the Alma Media share.

#### **Flagging notices**

In the third quarter of 2012, Alma Media did not receive notices of changes in shareholdings pursuant to Chapter 2, Section 9 of the Securities Markets Act.

#### **Risks and risk management**

The purpose of Alma Media Group's risk management activities is to continuously evaluate and manage all opportunities, threats and risks in conjunction with the company's operations to enable the company to reach its set objectives and to secure business continuity.

The risk management process identifies the risks, develops appropriate risk management methods and regularly reports on risk issues to the risk management organisation. Risk management is part of Alma Media's internal audit function and thereby part of good corporate governance. Limits and processing methods are set for quantitative and qualitative risk methods by the corporate risk management system in writing.

The most critical strategic risks for Alma Media are a significant drop in its newspaper subscriptions, a decline in advertising sales and a significant increase in distribution and delivery costs. Fluctuating economic cycles are reflected on the development of advertising sales, which accounts for approximately half of the Group's revenue. Developing businesses outside Finland such as in the Baltic countries and other East European countries include country-specific risks relating to market development and economic growth.

In the long term, the media business will undergo changes along with the transformation in media consumption and technological developments. The Group's strategic objective is to meet this challenge through renewal and the development of new business operations in online media. The most important operational risks are disturbances in information technology systems and telecommunication, and an interruption of printing operations.

#### Outlook for 2012

Due to the uncertainty prevailing in the macroeconomic conditions of the Group's main markets, it is exceptionally difficult to estimate the development of circulation and advertising revenues. Digital services are expected to further increase their share of the media market. Alma Media expects that the change in value-added tax, effective since the beginning of 2012, may decrease the circulations of the Group's newspapers.

Alma Media repeats its estimate given in the interim report of July 20, 2012, according to which the company expects its full-year revenue for 2012 to increase from the 2011 level, primarily due to the acquisitions made. Operating profit excluding non-recurring items is expected to be lower than in 2011. Full-year revenue for 2011 was MEUR 316.2, operating profit excluding non-recurring items MEUR 42.9 and operating profit MEUR 42.0.

#### Events after the review period

Alma Media Corporation on October 1, 2012 acquired 20 per cent of the stock of JM-Tieto Oy, a company specialising in corporate intelligence services. The company will be reported in the Kauppalehti Group segment as of November 1, 2012.

Alma Media Corporation signed two new credit facilities, both valued at MEUR 25, with Nordea Pankki Suomi Oyj and Skandinaviska Enskilda Banken Ab. At the same time, Alma Media has terminated its valid credit facility of MEUR 35, agreed previously with Skandinaviska Enskilda Banken Ab.

#### **Performance Share Plan 2012**

The Board of Directors of Alma Media Corporation has at its meeting in February 2012 resolved to implement a performance share plan for key personnel of Alma Media Group. The plan includes three (3) one (1) year performance periods, the calendar years 2012, 2013 and 2014, based on the Group's return. Furthermore, for the members of the Group Executive Team, the plan includes one (1) three (3) year performance period, the calendar years 2012—2014, based on the profitable growth of the Group.

The reward from the plan shall be paid to the key employees in a combination of shares and cash, after the end of each performance period by the end of April in 2013, 2014 and 2015. The reward from the performance period 2012—2014 shall be confirmed by the end of April 2015, and it shall be paid in two equal lots in a combination of shares and cash, one year and two years from the end of the performance period. Shares paid as reward on the basis of the plan, from the one-year performance period, may not be assigned, pledged or otherwise exercised (transfer restriction/s) during the restriction period established for the shares (restriction period/s). The restriction period shall begin from the reward payment and end on December 31, 2014 for the shares earned from the performance period 2012, on December 31, 2015 for the shares earned from the performance period 2013 and on December 31, 2016 for the shares earned from the performance period 2013.

No reward shall be paid to a key employee, if a Group company or a key employee gives notice of termination, or terminates a key employee's employment or service contract before the reward payment. A key employee shall be obliged to return the shares given as reward and subject to the transfer restriction back to the company or its designate, gratuitously, without delay, if a Group company or key employee gives notice of termination, or terminates a key employee's employee's employment or service contract before the end of the restriction period in question. Shares earned from the performance period 2012–2014 shall not be subject to the restriction period.

There shall be a maximum total of 600,000 shares and a cash payment needed for taxes and tax-related costs arising from the reward to the key employees on the book-entry registration date of the shares that shall be given as reward on the basis of the entire plan.

On the first performance period 2012, the Performance Share Plan shall include approximately 25 persons. The value of the plan for the performance period 2012 shall correspond to the value of 120,000 shares and a cash payment needed for taxes and tax-related costs arising from the reward to the key employees in case

the Group's return is in line with the performance criteria set by the Board of Directors. The fair value of the reward is expensed until the target group is entitled to the reward and the shares are freely transferable. The fair value of the cash proportion is remeasured on each reporting date based on the share price on the reporting date.

#### Main accounting principles (ifrs)

This interim report has been prepared according to IFRS standards (IAS 34). The interim report applies the same accounting principles and calculation methods as the annual accounts dated December 31, 2011. The interim report does not, however, contain all the information or notes to the accounts included in the annual financial statements. This report should therefore be read in conjunction with the company's financial statements for 2011. The accounting principles of the financial years 2011 and 2010 are comparable. The company has no discontinued operations to report in the 2011–2012 financial periods.

The key indicators are calculated using the same formulae as applied in the previous annual financial statements. The quarterly percentages of Return on Investment (ROI) and Return on Equity (ROE) have been annualised using the formula ((1+quarterly return)4)-1). The figures in this financial statement release are independently rounded.

The Group has applied the following standards and interpretations as of January 1, 2012:

Change in IFRS7: Financial Instruments: Disclosures Change in IAS 12: Income Taxes

The impact of the new standards presented above on the Group has been marginal.

The figures in this interim report are unaudited.

#### Seasonality

The Group recognises its circulation revenues as paid. Therefore, circulation revenues accrue in the income statement fairly evenly during the four quarters of the year. The bulk of circulation invoicing takes place at the beginning of the year and therefore the cash flow from operating activities is strongest in the first and second quarters. This also affects the company's balance sheet position in different quarters.

#### **General statement**

This report contains certain statements that are estimates based on the management's best knowledge at the time they were made. For this reason they contain a certain amount of risk and uncertainty. The estimates may change in the event of significant changes in the general economic conditions.

#### **Financial Statement Release**

Alma Media will publish its Financial Statement Release for 2012 on Friday, February 15, 2013.
