## Reporting

Talentum's business operations are divided into six segments: Magazine Business Finland, Magazine Business Sweden, Event Business, Books and Legal Training, Direct Marketing and Other Activities.

## CHIEF EXECUTIVE OFFICER AARNE AKTAN:

"Considering the circumstances our net sales developed favourably during the first quarter, especially in Finland. However, net sales and profitability in Sweden did not meet the expectations.

The general advertising market in Sweden started to decline in September 2012 and weakened further in the beginning of this year. The Swedish advertising market for professional journals decreased by 22.6 per cent in the first quarter.

The Finnish advertising market for periodicals also decreased by 16.2 per cent in the first quarter, and the general advertising market decreased by 13.3 per cent compared to the previous year. Despite the drop in net sales, our operating income from the magazine business in Finland was relatively good thanks to a $6.5 \%$ growth in circulation net sales and effective cost control. The growth of the net sales of circulation revenue is an exceptionally good achievement in today's market.

Net sales and profitability of Event Business segment remained at the previous year's level. Net sales of Books and Legal Training segment remained at the previous year's level, but the profitability improved.

Direct Marketing continued its steady growth, and profitability weakened slightly compared to the reference period.

Change in the media sector requires active product development. In the current quarter we are going to launch a new portal - Talentum Summa - to make it possible to order and purchase the online news, magazine contents and books of our company in digital format. Summa will give Talentum the opportunity to serve both its readers and advertisers in new ways."

## Business environment and seasonal variation

In the period from January to March, general economic uncertainty continued in both Finland and Sweden, which have a weakening effect on the business environment in the near future.

According to TNS Media Intelligence, the advertising market decreased by $13.3 \%$ in Finland and by $11.5 \%$ in Sweden (Sveriges Mediebyråer) during the first quarter of 2013. Advertising decreased by $16.2 \%$ in Finnish periodicals and by $22.6 \%$ in Swedish professional journals. In Finland online advertising revenues increased by $2.6 \%$ and by $8.0 \%$ in Sweden. Changes in the macro-economy had a generally negative impact, especially on recruitment advertising. Due to the unstable situation in the advertising market, advertising income from the magazine business in Finland and Sweden decreased, but Talentum's circulation revue grew slightly.
Talentum actively strives to respond to the challenges of the changing business environment. Talentum is working on two major development projects, namely Talentum Summa and a project focussing on customer information management.

Talentum Summa combines Talentum's magazines, websites and business literature into one content service. In the first phase content in Finnish will be available in the service and later also in Swedish. In addition to computers, the service is available in mobile applications as well. Summa enables to offer paid digital content and to aggregate it into a new content package. The content of Talentum's Swedish magazines and websites will also be included in the service at a later stage.

In the customer information development project, individual customer databases are combined into one package and the quality of customer information is improved. The aim of the project is to offer better-targeted contents to customers as well as to create more efficient sales and marketing tools to Talentum's sales and marketing forces.

The media and advertising markets are subject to seasonal variations. Talentum's magazines and books do not generally come out during the summer holiday season, which is why the third quarter is the weakest in terms of sales. Profit for the third period is almost always negative. Operations are generally at their busiest in the final quarter.

## Sector and Talentum prospects for 2013

Talentum estimates that its comparable net sales for 2013 will remain approximately at the same level as in 2012 and that its operating income without non-recurring items will be higher than in 2012.

## Consolidated net sales and profit for January-March 2013

Consolidated net sales for January-March decreased by 3.8\%, totalling EUR 19.8 million (EUR 20.5 million). The exchange rate of the Swedish krona against the euro had a positive impact of EUR 0.2 million on net sales.

Consolidated operating income without non-recurring items was EUR 0.8 million (EUR 0.3 million). Non-recurring items for January-March, which amounted to EUR 0.1 million (EUR 2.8 million), included expenses related to past restructuring. Non-recurring expenses for the comparative period included expenses related to the personnel reductions and reorganisation started in January 2012.

Consolidated operating income for January-March was EUR 0.7 million (EUR -2.5 million) and $3.7 \%$ ( $-12.3 \%$ ) of net sales. Net financial expenses amounted to EUR 0.3 million (EUR 0.2 million).

The exchange rate of the Swedish krona against the euro did not have a significant impact on operating income.

Income before taxes was EUR 0.4 million (EUR -2.7 million). The Group's taxes for the period under review were EUR -0.1 million (EUR 0.5 million). Consolidated income for January-March was EUR 0.3 million (EUR -2.2 million).

## Short-term risks for the business

Changes in general economic growth will affect Talentum's revenue and revenue structure. Traditionally, about $40 \%$ of consolidated net sales are dependent on advertising, particularly in the $B 2 B$ sector, which is sensitive to economic conditions. In present economic conditions, the share of advertising is about $27 \%$ ( $36 \%$ ) of net sales. The most economically sensitive component of advertising revenue is job advertising.

The Group's aim is to minimise market risk relating to advertising by increasing revenue from circulation and content sales. The goal is for all Talentum products and services to be market leaders in their fields, so that success is possible, even in a recession.

The growth of online services on the markets may change Talentum's earnings logic and have an impact on revenue structure and activities. Talentum actively follows the development of the online services markets.

Book readers will probably start using digital materials. If income from these materials does not cover the possibly lost income from traditional printed products to an adequate extent, this may result in weaker profitability for the Books and Legal Training segment.

The expansion of the operations of the event business to other Nordic countries involves a certain amount of risks. If, contrary to expectations, the growth plans were to remain unrealised, this could result in a temporary decrease in profitability.

With the growth of the Group's international operations, the consolidated profit and loss account and balance sheet are increasingly exposed to the effects of exchange rate fluctuations. The companies' operations are local and language-area-bound by nature, and there are very few currency-denominated transactions. The profit and loss account and balance sheet have not been hedged against exchange rate fluctuations.

## Cash flow, financial position and balance sheet for the Group

Cash flow from business operations in the first quarter was lower than in the previous year following the change in working capital and in operating income. Consolidated cash flow was EUR 0.3 million (EUR 0.7 million). The change in consolidated working capital was EUR -0.3 million (EUR 3.3 million). Working capital is negative, as is usual for the sector, because liabilities include subscription fee advances received from customers of EUR 14.2 million (for balance sheet items, the comparison date is 31 December 2012: EUR 13.6 million). The advance fees on the balance sheet at the end of March include subscription fee advances of EUR 4.8 million for Talentum's magazines, of which EUR 1.1 million is included in non-current receivables and EUR 3.7 million in current receivables.

The consolidated balance sheet total at the end of the period under review stood at EUR 56.7 million (EUR 55.0 million). The Group's interest-bearing loans and borrowing amounted to EUR 3.3 million (EUR 4.6 million). The Group's liquid assets were EUR 2.2 million (EUR 3.5 million). Interest-bearing net liabilities were EUR 1.1 million (EUR 1.1 million).

The available bank overdraft limit, which is valid until further notice, is EUR 12 million. EUR 3.2 million of the limit was in use at the end of the period under review (EUR 4.4 million was in use on 31 December 2012).

The equity ratio at the end of the period under review was $45.9 \%$ (47.6\%). The Group's equity per share was EUR 0.44 (EUR 0.45). The Group does not hedge against currency fluctuations with regard to the acquisition of subsidiaries. The weakening or strengthening of the Swedish krona against the euro affects the Group's equity through the translation difference arising from the acquisition of the Swedish subsidiaries. On 31 March 2013, the translation difference in the Group's equity was EUR 2.2 million. The change in the first quarter was EUR 0.8 million (positive).

## Investments

Gross investments in tangible and intangible assets for January-March totalled EUR 0.4 million (EUR 0.2 million), which is $2.2 \%$ ( $0.8 \%$ ) of net sales.

## Changes in Group structure

There were no changes in Group structure during the period.

## Personnel

## NOTES TO THE FINANCIAL STATEMENTS

In the preparation of this interim report, Talentum has applied the same principles as in the financial statements for 2012, and those new and revised IFRS-standards that have been described in the financial statements for 2012. Among the new and revised IFRS-standards only amended of IAS 19 Employee Benefits had significant effect on the preparation of the interim report.

## Amendment to IAS 19 - Employee Benefits

According to this amendment, all actuarial gains and losses are recognised under other comprehensive income. In other words, the use of the so-called "corridor approach" is eliminated. Expected return are no longer determined, and interest return on assets are calculated using the discount rate. In this interim report, the balance sheets for the comparative periods have been adjusted to meet the requirements of the amended standard.
As a consequence of this amendment, in the balance sheet for the reference period, equity on 31 December 2012 decreased by EUR 0.3 million and pension obligations increased by EUR 0.3 million, while equity on 31 March 2012
decreased by EUR 0.1 million and pension obligations increased by EUR 0.1 million. For comparative period January-March 2012 the amendment decreased the operating income by EUR -0.0 million, and for January-December 2012 the amendment decreased the operating income by EUR -0.2 million.
All figures in this report have been rounded up or down, so the sums of individual figures may differ from the totals shown.
