*) The figures for the comparative year do not include the construction information business sold in August 2011, which is presented as a discontinued business. The figures for the comparative year include Talentum HR AB, which was sold in December 2011.

- In the comparative year, Talentum $H R$ AB's net sales for July-September were EUR 1.1 million, operating income was EUR -0.1 million and operating income without non-recurring items was EUR 0.1 million. In the comparative year, Talentum $H R A B ' s$ net sales for January-September amounted to EUR 3.3 million, operating income was EUR -0.8 million and operating income without nonrecurring items was EUR -0.6 million. In the comparative year, Talentum $H R$ AB's net sales for January-December was EUR 4.5 million, operating income EUR -3.6 million and operating income without non-recurring items was EUR -0.5 million.

## Reporting

Talentum's business operations are divided into six segments: Magazine Business Finland, Magazine Business Sweden, Event Business, Books and Legal Training, Direct Marketing and Other Operations.

A separate stock exchange release on the change in reporting segments was issued on 17 April 2012.

## AARNE AKTAN, CEO:

"There was a strong negative change in advertising markets in Sweden in September. A decrease of 20.3 percent in general Swedish advertising sales markets reflects this change as well. Also Talentum's position on the markets weakened strongly and therefore we lowered the estimate for net sales and operating income for 2012.

Events continued good growth and we are pleased with the results. Also Direct Marketing performed fairly well both growth and profit wise.

Books and Legal Training developed steadily despite challenging markets.
The Finnish periodicals advertising market decreased by 11.9 percent in JulySeptember compared with previous year. Finnish online markets grew 7.9 percent during the third quarter from previous year. Magazine Business Finland developed as expected on unstable markets.

We are actively focusing on developing new products and services with the help our newly established Development Team to further strengthen our competitiveness."

## Operating environment and seasonal variation

Talentum estimates that weak economic growth in the main market areas, Finland and Sweden in the third quarter and growing general economic unstability will decrease the volume of advertising in 2012.

According to TNS Media Intelligence, the Finnish advertising market decreased by 3.7\% in January-September. Advertising decreased by $5.4 \%$ in periodicals and increased by $5.2 \%$ in professional and business journals. Online media advertising increased by 8.5\%. In Sweden, total media advertising decreased by $0.5 \%$ in January-September, while in professional journals it decreased by 8.6\% (Sveriges Mediebyråer).

The media and advertising markets are subject to seasonal variations. Talentum's magazines and books do not generally come out during the summer holiday season, which is why the third quarter is the weakest in terms of sales. Income for the third period is almost always negative. Operations are generally at their busiest in the final quarter.
Talentum's prospects for 2012
On October 12, 2012 Talentum Oyj issued a stock exchange release and lowered the estimates for net sales and operating income for 2012. The change is mainly based on the fact that estimates of media sales in Magazine Business Sweden have become weaker.

According to the new estimate Talentum Oyj's comparable net sales and operating income without non-recurring items for 2012 are estimated to remain at a slightly lower lever than in 2011.

In the previous estimate in the latest interim report published on July 20, 2012 Talentum estimated that its comparable net sales in 2012 (2011: about EUR 79.0 million without Talentum $H R A B$, which was sold at the end of the year) will remain at the same level and that operating income without non-recurring items will increase compared to 2011.
Consolidated net sales and income for July-September 2012, continuing operations
Consolidated net sales for July-September decreased by 8.4\%, totalling EUR 14.3 million (EUR 15.6 million). Without Talentum $H R A B$, which was sold in December 2011, net sales decreased by $1.2 \%$. The exchange rate of the Swedish krona against the euro had a positive impact of EUR 0.5 million on net sales.

Consolidated operating income without non-recurring items was EUR -1.2 million (EUR -1.0 million). Non-recurring items for July-September amounted to EUR 0.1 million (EUR -0.1 million) and included expenses related to the personnel reductions.

Consolidated operating income for July-September was EUR -1.2 million (EUR -0.8 million) and $-8.6 \%(-5.2 \%)$ of net sales. Net financial expenses amounted to EUR 0.4 million (EUR 0.2 million).

The exchange rate of the Swedish krona against the euro did not have a significant impact on operating income.

Income before taxes was EUR -1.6 million(EUR -1.0 million). The Group's taxes for the period under review were EUR 0.3 million (EUR 0.2 million). Consolidated income for July-September was EUR -1.3 million (EUR -0.8 million).

## Consolidated net sales and income for January-September 2012, continuing operations

Consolidated net sales for January-September decreased by 7.0\%, totalling EUR 54.8 million (EUR 58.9 million). Without Talentum $H R$ AB, which was sold in December 2011, net sales decreased by 1.5\%. The exchange rate of the Swedish krona against the euro had a positive impact of EUR 0.6 million on net sales.

Consolidated operating income without non-recurring items was EUR -0.0 million (EUR 0.7 million). Non-recurring items for January-September amounted to EUR 3.1 million (EUR 0.1 million) and included expenses related to the personnel reductions and reorganisation. Measures related to reorganization have now been completed. The objective of the negotiations is an annual cost reduction of approximately EUR 4.5 million as of 2013. It was estimated that in the current
year savings of approximately EUR 2 million will be realized and the estimate will be reached.

Consolidated operating income for January-September was EUR -3.1 million (EUR 0.7 million) and $-5.7 \% ~(1.2 \%)$ of net sales. Net financial expenses amounted to EUR 0.8 million (EUR 0.4 million).

The exchange rate of the Swedish krona against the euro did not have a significant impact on operating income.

Income before taxes was EUR -3.9 million (EUR 0.3 million). The Group's taxes for the period under review were EUR 0.9 million (EUR -0.1 million).
Consolidated income for January-September was EUR - 3.0 million (EUR 0.2 million).

## Short-term risks for the business

The changes in general economic growth will affect Talentum's revenue and revenue structure. Traditionally, about 40\% of consolidated net sales are dependent on advertising, particularly in the B2B sector, which is sensitive to economic conditions. Under the present economic conditions, the share of advertising is about 33\% (37\%) of net sales. The most economically sensitive component of advertising revenue is job advertising.

The aim of the Group is to minimise the market risk relating to advertising by increasing revenue from circulation and content sales. The goal is for all Talentum products and services to be market leaders in their fields, so that success is possible even in times of recession.

The growth of online services on the markets may change Talentum's earnings logic and have an impact on revenue structure. Talentum actively follows the development of the online services markets.

With the growth of the Group's international operations, the consolidated profit and loss account and balance sheet are increasingly exposed to the effects of exchange rate fluctuations. The companies' operations are local and language-area-bound by nature, and there are very few currency-denominated transactions. The profit and loss account and balance sheet have not been hedged against exchange rate fluctuations.

## Cash flow, financial position and balance sheet for the Group

The cash flow from business operations in January-September was lower than in the previous year mainly due to the non-recurring expenses included in the income for the period under review. The consolidated cash flow from continuing operations was EUR -2.6 million (EUR -0.2 million). The change in consolidated working capital from continuing operations was EUR -0.1 million (EUR -1.6 million). Working capital is negative, as is usual for the sector, because liabilities include subscription fee advances received from customers of EUR 15.8 million (for balance sheet items, the comparison date is 31 December 2011: EUR 16.8 million). The received advance fees on the balance sheet at the end of September include subscription fee advances of EUR 6.5 million for Talentum's magazines, of which EUR 3.6 million is included in non-current receivables and EUR 2.9 million in current receivables.

The consolidated balance sheet total at the end of the period under review stood at EUR 57.8 million (EUR 57.3 million). The Group's interest-bearing loans and borrowings amounted to EUR 6.0 million (EUR 1.2 million). The Group's liquid assets were EUR 1.1 million (EUR 2.6 million). Interest-bearing net liabilities were EUR 4.9 million (EUR -1.5 million).

The available bank overdraft limit, which is valid until further notice, is EUR 12 million. EUR 5.8 million of the limit was in use at the end of the period under review (EUR 0.8 million was in use on 31 December 2011).

During the spring 2012, the Group reassessed its financing needs. As a consequence of the assessment, the previous financing limits (EUR 22.0 million in total) were deemed unnecessary and discontinued.

The equity ratio at the end of the period under review was $42.7 \%$ (54.1\%). The Group's equity per share was EUR 0.41 (EUR 0.50). The Group does not hedge against currency fluctuations with regard to the acquisition of subsidiaries. The weakening or strengthening of the Swedish krona against the euro affects the Group's equity through the translation difference arising from the acquisition of the Swedish subsidiaries. On 30 September 2012, the translation difference in the Group's equity was EUR 1.8 million. The change for January-September was EUR 1.5 million (positive).

## Investments

The gross investments of continuing operations in tangible and intangible assets for January-September totalled EUR 1.4 million (EUR 0.7 million), which is 2.5\% (1.2\%) of net sales.

## Changes in Group structure

The construction information business sold in August 2011 is presented as discontinued operations for the comparative year.

The figures for Talentum $H R$ AB, which was sold in December 2011, are included in continuing operations for the comparative year.

Talentum Oyj changed its profit centre organisation in January 2012 to provide better support for the Group's current business operations. As a result of the organisational change, Talentum changed the segment division in its financial reporting from the first quarter of 2012.
A separate stock exchange release on the change in external reporting was issued on 17 April 2012.

## Personnel

In January-September, Talentum Group's continuing operations employed an average of 743 (744) people. Geographically, personnel were divided as follows: Finland 414 (411), Sweden 131 (161), Denmark 14 (10), Latvia 92 (70), Estonia 85 (84) and Russia 8 (8).

On 30 January 2012, the company started negotiations with personnel
representatives to reduce personnel. The negotiations were concluded on 21 March 2012, and they covered the personnel of Talentum Oyj and Talentum Media Oy in Finland and the magazine business personnel in Sweden, a total of about 330 people. In order to adapt operations and costs, personnel reductions corresponding to a total of about 40 man-years were made for Finland's publishing operations, the parent company and the Magazine Business Sweden segment. The negotiations were concluded on 21 March 2012.

Separate stock exchange releases on the personnel reductions were issued on 30 January 2012 and 21 March 2012.

## NOTES TO THE FINANCIAL STATEMENTS

In the preparation of this interim report, Talentum has applied the same principles as in the financial statements for 2011 despite of the accounting policy change described below.
As of 1 August 2012, the Group reviewed its accounting policy of the share of income of those associated companies that relate closely to business operations. The Group started to present the share of income of associated companies that relate closely to business operations above operating income in the consolidated profit and loss account, since business operations of these associated companies support the operative activities of the Group. Previously, the share of income of those associated companies that relate closely to business operations was presented below operating income. Accounting policy change gives better information about business operations of the Group. The information for the comparative years' periods has been adjusted accordingly. In segment reporting, the share of income of associated companies that relate closely to business operations is included in the Other Activities segment.

All figures in the report have been rounded up or down, so the sums of individual figures may be different from the totals shown.
